General Information

The following information is derived from the Company's Prospectus. The Prospectus, the Articles of Association, the Key Investor Information Documents (KIIDs), Packaged Retail and Insurance-based Investment Products (PRIIPs), the Annual and Semi-Annual Report, as well as a list containing all purchases and sales which have been made during the reporting year, can be obtained free of charge from the office of State Street Fund Services (Ireland) Limited (the "Administrator").

Structure

UBS (Irl) Fund Solutions plc (the "Company") is an umbrella investment company with segregated liability between sub-funds and with variable capital incorporated in Ireland as a public limited company on 21 May 2010. The Company operates under the Companies Act, 2014 (the "Companies Act") and is authorised by the Central Bank of Ireland (the "Central Bank") as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations"), and under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)), Regulations 2019 (the "Central Bank UCITS Regulations"). All capitalised terms not defined herein shall have the meaning attributed to them in the latest Prospectus for the Company. References to statutes, regulations and laws shall include any amendments thereto.

The Company is structured as an umbrella investment company, in that different sub-funds may be established from time to time by the Directors with the prior approval of the Central Bank. A separate portfolio of assets shall be maintained for each sub-fund (each a "Sub-Fund", collectively "Sub-Funds") and shall be invested in accordance with the investment objective applicable to such Sub-Fund as specified in the relevant supplement to the Prospectus, and each relevant supplement shall include all such relevant information in relation to the additional Sub-Fund or Sub-Funds as the Directors may deem appropriate and the Central Bank requires to be included. Each Sub-Fund will bear its own liabilities and, under Irish law, none of the Company, any of the service providers appointed to the Company, the Directors, any receiver, examiner or liquidator, or any other person will have access to the assets of a Sub-Fund in satisfaction of a liability of any other Sub-Fund.

Shares of any particular series may be divided into different Classes to accommodate different dividend policies, charges and/or fee arrangements (including different flat fees) and/or currencies. The Company may establish Classes that provide for foreign exchange hedging in accordance with the policies and requirements of the Central Bank from time to time. While it is anticipated that applications will be made for most of the Classes to be admitted to listing on one or more Listing Stock Exchange, the Company may also establish Classes of Unlisted Shares.

At the financial year end date, the following Sub-Funds are in operation:

Sub-Fund	Launch Date	Currency

² Primary Stock Exchange.

³ The Sub-Fund launched on 20 February 2025.

⁴ The Sub-Fund launched on 19 May 2025.

Asset Pool

To reduce operational and administrative charges and to facilitate diversification of investments the Manager may authorise the assets of any Sub-Fund to be managed in conjunction with other funds established by the Manager or other funds promoted or managed by the Manager or any company affiliated to the Manager. This will be done by

establishing a pool of assets ("Pool" or "Pools") comprising cash and investments contributed by all Sub-Funds which participate in the Pool ("Participating Funds"). This technique is known as pooling.

A Pool is not a separate legal entity and an investor may not invest directly in a Pool. The Investment Manager is not permitted to manage the assets of any Sub-Fund on a pooled

basis without the prior consent of the Manager. The Manager shall be notified in respect of the admission of any Sub-Fund as a Participating Fund in a Pool in which a Sub-Fund participates.

As at 30 June 2025, two Pools were in operation (30 June 2024: two). As at 30 June 2025 and 30 June 2024, all Sub-Funds use pooling.

Each Sub-Fund's investment in the Pool is shown in the Statement of Financial Position and the Schedule of Investment of that Sub-Fund as the Sub-Fund's share of the investments held by the Pool.

Directors' Report

The Directors present their report together with the audited financial statements of UBS (Irl) Fund Solutions plc (the "Company") for the financial year ended 30 June 2025.

Results for the financial year and state of affairs

The results for the financial year are set out in the Statement of Comprehensive Income and the state of affairs of the Sub-Funds and the Company is set out in the Statement of Financial Position.

Directors

The following Directors held office on 30 June 2025 and throughout the financial year then ended except where otherwise noted:

Alan White* (Irish)
 Naomi Daly**, *** (Irish)
 Audrey Collins**, **** (Irish)
 Marie Antoinette Petrini*, ***** (Spanish)
 Markus Goetschi* (Swiss)
 William Kennedy*, ***** (Irish)
 Alessandra Calabretta*, ***** (Italian)
 Gavin Byrnes*, ***** (Irish)

* Non-executive Directors

** Independent non-executive Directors

*** Chairperson of the Board

**** Resigned on 19 September 2024

***** Appointed on 19 September 2024

***** Resigned on 19 June 2025

***** Appointed on 19 June 2025

***** Appointed on 13 August 2025

The Company has delegated the day-to-day management and running of the Company to the Manager, UBS Fund Management (Ireland) Limited, in accordance with the policies approved by the Directors. Consequently, all Directors of the Company are non-executive.

Principal Activities

The Company is an umbrella fund with segregated liability between sub-funds, established as an investment company with variable capital incorporated with limited liability under the laws of Ireland.

The Company is a public limited company pursuant to the Companies Act 2014 and it is authorised by the Central Bank of Ireland as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations"), and under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)), Regulations 2019 (the "Central Bank UCITS Regulations").

Directors' and Secretary's interests

None of the Directors, their families or the Secretary held any interest in the shares of the Company during the financial year with the exception of Alan White, an employee of the manager, who held one €1 subscriber share in the Company. Please see Note "Related Party Transactions" for further information.

Director Naomi Daly is an Independent Director of the Manager, a subsidiary of UBS AG.

Director William Kennedy was appointed on 19 September 2024 and is a non-executive director of the Manager, a subsidiary of UBS AG.

Director Gavin Byrnes was appointed on 13 August 2025 and is a non-executive director of the Manager, a subsidiary of UBS AG.

Director Marie Antoinette Petrini was an employee of UBS Europe SE, Madrid branch and resigned on 19 June 2025.

Director Alessandra Calabretta was appointed on 19 June 2025 and is also an employee of UBS Asset Management (Italia) SGR SpA.

Director Markus Goetschi is an employee of the Distributor, UBS Asset Management Switzerland AG.

No Director had an interest in any other contract of significance in relation to the business of the Company at any time during the financial year or at the financial year end.

Adequate accounting records

The Directors ensure compliance with the Company's obligation under Section 281 of the Companies Act, 2014 to keep adequate accounting records by appointing competent persons to be responsible for them. The accounting records are kept by the Administrator, State Street Fund Services (Ireland) Limited, at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Dividends

None of the Sub-Funds intend to pay dividends with the exception of UBS MSCI ACWI SF UCITS ETF, UBS MSCI USA SF Index Fund, UBS US Equity Defensive Covered Call SF UCITS ETF and UBS S&P 500 Equal Weight SF UCITS ETF. However, the Directors may, in their absolute discretion, determine to declare dividends in respect of any Share Class and Shareholders will be notified accordingly. Any dividends payable will be effected in accordance with the Dividend Policy stated in the Prospectus.

During the financial year, a dividend was declared for the following share classes:

Sub-Fund	Share Class	Ex-Date	Dividend Rate	Dividend
UBS MSCI ACWI SF UCITS ETF	hCHF Ukdis	2 August 2024	CHF 1.6496 per share	CHF 382,852

Review of Business

There was no change in the nature of the Company's business during the financial year. A detailed review of business is included in the Investment Manager's Report for each Sub-Fund.

Principal Risk and Uncertainties

The principal risks and uncertainties faced by the Company are the investments risks associated with the portfolio of investments held by the Sub-Funds and the operational risks associated with their management and administration.

Details of the Company's risk management objectives and policies are included in Note 5 of the Financial Statements.

Significant events during the financial year

Please see Note 14 for significant events during the financial year.

Significant events after the financial year end

Please see Note 15 for significant events after the financial year end.

Independent auditor

The Company's Independent auditors, Ernst & Young, were appointed on 23 October 2020, in accordance with section 383 (1) of the Companies Act. Ernst & Young have indicated their willingness to remain in office in accordance with Section 383 (2) of the Companies Act 2014 (as amended).

Corporate Governance Statement

General Principles

The Company is subject to the requirements of the Companies Act, 2014, the Central Bank of Ireland's UCITS Regulations, as applicable to the Company.

The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report.

Although there is no specific statutory corporate governance code applicable to Irish collective investment schemes whose shares are admitted to trading on an exchange, the Company is subject to corporate governance practices imposed by:

- (i) The Companies Act, 2014, which are available for inspection at the registered office of the Company; and may also be obtained at <http://www.irishstatutebook.ie/eli/2014/act/>;
- (ii) The Articles of Association of the Company which are available for inspection at the registered office of the Company and at the Companies Registration Office in Ireland;
- (iii) The Central Bank of Ireland's UCITS Regulations, which can be obtained from the Central Bank's website at: <http://www.centralbank.ie/regulation/industry-sectors/funds/ucits/Pages/default.aspx> and are available for inspection at the registered office of the Company; and
- (iv) The Company voluntarily adopted and was fully compliant with the Corporate Governance Code for Irish Domiciled Collective Investment Schemes as published by the Irish Funds ("IF") with effect from 1 January 2013.

The IF Code is available for inspection at the registered office of the Company and may also be obtained at www.irishfunds.ie. The Board has assessed the measures included in the IF Code as being consistent with its corporate governance practices and procedures for the financial year.

The Board of Directors (the "Board") did not adopt any further corporate governance codes for the financial year ended 30 June 2025.

Internal Control and Risk Management Systems in Relation to Financial Reporting

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has procedures in place to ensure that all adequate accounting records are properly maintained and are readily available, including production of annual and half yearly financial statements. The Board has appointed the Administrator to maintain the adequate accounting records of the Company. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. From time to time, the Board of Directors

examines and evaluates the Administrator's financial accounting and reporting routines. The annual financial statements of the Company are produced by the Administrator and reviewed by the Manager.

They are required to be approved by the Board and the annual and half yearly financial statements of the Company are required to be filed with the Central Bank.

During the financial year of these financial statements, the Board was responsible for the review and approval of the unaudited half yearly financial statements and annual audited financial statements as set out in the Statement of Directors' Responsibilities. The statutory financial statements are required to be audited by independent auditors who report annually to the Board on their findings. The Board monitors and evaluates the independent auditor's performance, qualifications and independence. As part of its review procedures, the Board receives presentations from relevant parties including consideration of International Financial Reporting Standards ("IFRS") accounting standards and their impact on the annual audited financial statements, and presentations and reports on the audit process. The Board evaluates and discusses significant accounting and reporting issues as the need arises.

Dealings with Shareholders

The convening and conduct of shareholders' meetings are governed by the Articles of Association of the Company and the Companies Act, 2014 (as amended). Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors were required to convene the first annual general meeting of the Company within eighteen months of incorporation and fifteen months of the date of the previous annual general meeting thereafter, provided that an annual general meeting is held within each calendar year.

At least twenty-one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen days' notice must be given in the case of any other general meeting, unless the auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice. Two shareholders present either in person or by proxy constitutes a quorum at a general meeting. The share capital of the Company is divided into different classes of shares and the Irish Companies Act, 2014 and the Articles of Association provide that the quorum for a general meeting convened to consider any alteration to the rights attached to any class of shares, is two or more shareholders present in person or by proxy, holding or representing by proxy at least one third of the issued shares of the relevant class.

Every holder of participating shares or non-participating (subscriber) shares present, in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of participating shares present, in person or by proxy, is entitled to one vote in respect of each share held by him, and every holder of non-participating (subscriber) shares is entitled to one vote in respect of all non-participating shares held by him. At any general meeting of the Company, a resolution put to the vote of the meeting is decided on a show of hands unless, before or upon the declaration of the result of the show of hands, a poll is demanded by the chairman of the general meeting, or by at least two members or shareholders present, in person or by proxy, having the right to vote at such meeting, or any holder or holders of participating shares present, in person

or by proxy, representing at least one tenth of the shares in issue having the right to vote at such meeting.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. Alternatively, a resolution in writing signed by all of the shareholders and holders of non-participating (subscriber) shares for the time being entitled to attend and vote on such resolution at a general meeting of the Company, will be valid and effective for all purposes as if the resolution had been passed at a general meeting of the Company duly convened and held. An ordinary resolution of the Company (or of the shareholders of a particular Sub-Fund or class of shares) requires a simple majority of the votes cast by the shareholders voting, in person or by proxy, at the meeting at which the resolution is proposed. A special resolution of the Company (or of the shareholders of a particular Sub-Fund or class of shares) requires a majority of not less than 75% of shareholders present, in person or by proxy, and voting in a general meeting in order to pass a special resolution including a resolution to amend the Articles of Association.

Board Composition and activities

In accordance with the Companies Act, 2014 and the Articles of Association, unless otherwise determined by an ordinary resolution of the Company in a general meeting, the number of Directors may not be less than two nor more than twelve. Currently the Board is comprised of five non-executive Directors of which, one is an independent non-executive Director. Details of the current Directors are set out above, under the heading "Directors".

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are not required by the Companies Act, 2014 (as amended) or by the Articles of Association of the Company required to be exercised by the Company in a general meeting.

The Board is responsible for the Company's overall direction and strategy and to this end it reserves the decision making power on issues such as the determination of medium and long term goals, review of managerial performance, organisational structure and capital needs and commitments to achieve the Company's strategic goals. To achieve these responsibilities, the Board meets four times a year to review the operations of the Company, address matters of strategic importance and to receive reports from the Administrator, State Street Custodial Services (Ireland) Limited (the "Depository") and the Investment Manager. However, a Director may, and the Company Secretary on the requisition of a Director will, at any time summon a meeting of the Directors and ad hoc meetings in addition to the four meetings are convened as required.

In the case of an equality of votes, the Chairman of the meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

A sub-committee of the Board operated during the financial year with authority to bind the Board with respect to certain operational issues such as activating share classes and waiving of dealing deadlines. All decisions of the sub-committee are reported to the Board on a regular basis.

Description and objective of the Company's Diversity Policy

The Company believes in diversity, and values the benefits that diversity can bring to its Board of Directors. The Board acknowledges the benefits of greater diversity, including diversity of gender, experience, thought, background and attributes at senior management levels and the importance of diversity in ensuring good governance and sound decision-making. Diversity acts as an essential safeguard against the emergence of group-think and harmful industry practices and as such the Company remains committed to ensuring that the Board brings a wide range of skills, knowledge, experience, background and perspectives. Being aware of the risks associated with the lack of diversity, the Board considers that the promotion of a diverse Board makes prudent business sense and makes for better corporate governance.

Implementation of the Diversity Policy

Due to the size, nature and complexity of the Company's business, and in particular the fact that the Company does not have any employees, the Board does not consider it appropriate to apply targets for diversity or to establish a nomination committee. The Company seeks to maintain a diverse Board comprised of talented and dedicated directors with a diverse mix of expertise, qualifications and backgrounds. When assessing Board composition or identifying suitable candidates for appointment or re-election to the Board, the Company will consider candidates on merit against objective criteria, in the context of the overall balance of skills and backgrounds that the Board needs to maintain in order to remain effective, having due regard to the benefits of diversity, the needs of the Company and the best interests of its shareholders. The Board considers its membership, including as part of the annual Board performance review, to identify actions that would enhance the levels of diversity of thought and effective challenge, in order to improve decision-making and risk management.

Results of the Diversity Policy in the financial year

The composition of the board changed as at 30th of June and is currently comprised of five individuals, all of whom are non-executive, and one of whom is independent. The directors have diverse backgrounds and a diverse range of expertise and qualifications. They include residents of Ireland, Italy and Switzerland. Their professional qualifications include solicitor, chartered accountant, tax adviser, and chartered financial analyst. Their areas of expertise include distribution, investment management, regulation, management company and delegate oversight, and governance.

Connected Persons

Regulation 43(1) of the UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the unit-holders of the UCITS".

As required under UCITS Regulation 81.4, the Directors of the Manager are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all

transactions with a connected person; and all transactions with a connected persons that were entered into during the year to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

Audit Committee

The Directors believe that there is no requirement to form an audit committee as the Board is formed of non-executive Directors with one as an independent Director and the Company complies with the provisions of the IF Corporate Governance Code. The Directors have delegated the day-to-day investment management and administration of the Company to the Manager.

Directors' Fees

The charge for Directors' remuneration during the financial year ended 30 June 2025 amounted to EUR 68,250 (30 June 2024: EUR 65,000), of which EUR 26,125 (30 June 2024: EUR 16,250) was payable at the financial year end. Please see Note 3 "Related Party Transactions" for further information.

Direct brokerage

There were no direct brokerage services utilised for the financial year ended 30 June 2025 (2024: Nil).

Directors' Responsibility Statement

The Directors are responsible for preparing the Directors' Report and financial statements in accordance with Irish law and International Financial Reporting Standards as adopted by the European Union ("IFRS").

Irish company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that financial year. Under that law the Directors have elected to prepare the financial statements in accordance with IFRS and applicable Irish law.

Under Irish law the Directors shall not approve the financial statement unless they are satisfied that they give a true and fair view of Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act, 2014 and enable those financial statements to be audited.

The Company's financial statements will be published electronically on a web site maintained by the Investment Manager, namely www.ubs.com/etf. The Directors are responsible for ensuring that the financial statements provided to the Investment Manager for publication on the website are consistent with the manually signed financial statements. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Directors are responsible for safeguarding the assets of the Company. In this regard they have entrusted the assets of the Company to State Street Custodial Services (Ireland) Limited (the "Depositary") who has been appointed as Depositary and Trustee to the Company pursuant to the terms of a depositary agreement. The Directors are also responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities. The Directors comply with the Company's obligation to keep adequate accounting records by the

delegation of the accounting function to the Administrator. The measures taken by the Directors to secure compliance with the Company's obligations to keep adequate accounting records are the use of appropriate systems and procedures and employment of competent persons. The accounting records are kept and maintained by State Street Fund Services (Ireland) Limited (the "Administrator") at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Directors' compliance statement

The Board is responsible for securing the Company's compliance with its relevant obligations as set out in section 225 of the Companies Act, 2014 (the "Obligations"), which includes compliance with tax law and certain company law obligations.

The Board confirms:

- a compliance policy statement has been drawn up setting out the Company's policies (that, in the Board's opinion are appropriate to the Company) with respect to the compliance by the Company with its relevant obligations;
- appropriate arrangements or structures have been put in place that are, in the Board's opinion, designed to secure material compliance with the Company's relevant obligations; and
- a review has been conducted during the financial year to which this report refers of the arrangements or structures that have been put in place.

The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act, 2014.

The Directors confirm to the best of their knowledge, belief and understanding, having made the appropriate enquiries, that they have complied with the above requirements in preparing the financial statements.

Statement of relevant audit information

As at the date of this Directors' Report was approved and signed (set out below), each Director is satisfied that:

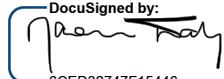

- there is no relevant audit information of which the Company's statutory auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information.

Where "relevant audit information" means information needed by the Company's statutory auditors in connection with preparing their report.

Depository's Report

To the Shareholders of UBS (Irl) Fund Solutions plc (the "Company")

We have enquired into the conduct of the Company for the financial year ended 30 June 2025, in our capacity as Depository to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (the "UCITS Regulations"), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depository

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that financial year in accordance with the provisions of the Company's Constitution (the "Constitution") and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depository must state why this is the case and outline the steps which we have taken to rectify the situation.

State Street Custodial Services (Ireland) Limited
78 Sir John Rogerson's Quay
Dublin 2
Ireland

20 October 2025

Basis of Depository Opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Constitution and the UCITS Regulations and (ii) otherwise in accordance with the Constitution and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

Market overview

Equities

Quarter Three 2024

Global equities delivered strong performance in the third quarter of 2024, with the MSCI All Country World Index rising 5.0%, supported by easing inflation and widespread central bank rate cuts. September alone saw a 2% gain, defying typical seasonal weakness. Chinese equities led the rally, with MSCI China surging 23.3% in September and 28.8% year-to-date, driven by aggressive monetary and fiscal stimulus, including interest rate cuts, mortgage rule easing, and a CNY 500bn swap facility to support stock purchases. US equities recovered from early-month weakness, with the S&P 500 climbing 2.1% in September and 5.9% for the quarter, bringing its year-to-date return to 22.1%, buoyed by the Federal Reserve's first rate cut of the cycle and encouraging inflation data. In contrast, Swiss, UK, and Japanese equities declined in September, with MSCI Switzerland down 1.7%, MSCI UK 1.8%, and Japan 2.2%, the latter impacted by concerns over potential tightening under new leadership. Overall, Q3 2024 was marked by a broad-based recovery in global equities, led by China and the US, amid a shift in monetary policy and improving inflation dynamics.

Quarter Four 2024

Global equities ended 2024 on a strong note despite a cautious December, with the MSCI All Country World Index declining 1.6% and the S&P 500 falling 2.4% in the final month, mostly during the last three trading sessions. For the full year, global stocks returned 20.7%, led by the S&P 500's 25% gain—its second consecutive year of over 20% returns and fifth straight quarterly advance. The rally was driven by resilient US economic data, progress on inflation, and enthusiasm around AI, highlighted by a 50.5% surge in the NYSE FANG+ index and a 171.2% rise in NVIDIA shares. The equal-weighted S&P 500 rose 13%, reflecting broader but less intense gains. China and Japan also posted strong annual performances, with MSCI China up 19.8% and MSCI Japan up 21.2%, supported by improving economic sentiment and stimulus expectations. European markets advanced more modestly: MSCI EMU rose 10.3%, MSCI UK 9.5%, and MSCI Switzerland 6.6%, the latter weighed down by a 4.7% decline in Q4. Overall, the fourth quarter of 2024 reflected a recalibration of market expectations around monetary policy, while full-year equity returns underscored the resilience of key regions and sectors, particularly in the US and Asia.

Quarter One 2025

Global financial markets experienced their weakest quarter since 2023, with the MSCI All Country World Index down 2.0% and March alone seeing a 4.4% decline, driven by escalating US trade tensions, stagflation fears, and uncertainty around AI monetisation. The S&P 500 fell 4.3% for the quarter and 5.6% in March, marking the worst performance among major regions. The US imposed sweeping tariffs - 25% on imports from Mexico, Canada, and autos, and an additional 10% on Chinese goods - fueling concerns over inflation and growth. Consumer sentiment deteriorated, with the University of Michigan survey hitting its lowest level since 2022, and two-thirds of respondents expecting rising unemployment. In contrast, China outperformed, with the MSCI China Index gaining 15% for the quarter, supported by AI advancements

and a pro-business policy shift. European equities posted mixed results: March saw a 3% decline amid caution ahead of further US tariffs, but the MSCI EMU rose 7.7% for the quarter, buoyed by Germany's fiscal expansion. Switzerland and the UK also ended March negatively but delivered quarterly gains of 9.2% and 6.4%, respectively. Japan declined 4.4% for the quarter, while emerging markets rose 3.0%. The quarter was marked by rising geopolitical risks and competitive pressure from China's AI sector, with Ant Group and DeepSeek making notable progress. Overall, Q1 2025 reflected heightened volatility and regional divergence, with US equities underperforming and China leading gains.

Quarter Two 2025

Global financial markets rebounded strongly in Q2 2025, overcoming April's tariff-driven correction. The MSCI All Country World Index rose 9.5% for the quarter, with a 3.9% gain in June alone, while the S&P 500 surged 10.9% to new record highs, driven by large-cap technology and AI-related stocks; however, the equal-weighted S&P 500 lagged at 5.5%, highlighting the rally's narrow breadth. Emerging markets outperformed, gaining 12.2%, supported by improving sentiment in China and India and renewed foreign inflows, with the MSCI China Index rising 2.6%. Japan posted a 7.6% gain, aided by yen weakness. In contrast, European equities underperformed: the MSCI EMU rose 5.5%, while Switzerland declined 2.7% due to profit-taking and a strong franc. UK equities were modestly positive at 2.4%, constrained by growth concerns. Despite geopolitical tensions - including strikes on Iran's nuclear facilities and US military action - and fiscal uncertainty surrounding the US "One Big Beautiful Bill Act," markets remained resilient. Trade negotiations progressed, with Canada dropping its planned digital services tax and the US and China signing a trade agreement ahead of the 90-day reciprocal tariff pause deadline. Overall, investor sentiment improved, supported by stable credit spreads, lower yields, and a collective willingness among major economies to avoid trade wars.

Commodities

Quarter Three 2024

Commodities delivered a slightly negative performance in the third quarter, with the Bloomberg Commodity Excess Return index down 0.6%. The Energy sector was by far the worst performing sector, losing 12.4% during the quarter. Oil prices have fallen sharply primarily due to concerns over demand in particular from China. Front-end oil futures have been volatile over the quarter due to slowing fundamentals and geopolitical risks. In September, Brent crude oil prices slipped below USD 70 temporarily, marking the lowest level year-to-date, before stabilizing. The move was largely driven by supply-side factors. Supply disruptions in Libya came to an end and the planned phasing out of OPEC+ production cuts is likely to start in December, raising the risk of an oversupplied market in 2025. Industrial metal prices have fallen by a mid- to high-single-digit percentage since the beginning of the second half before rebounding in the end of the quarter, generating a modest gain of 1.6% in Q3. In September, Copper jumped almost 10%, temporarily climbing back above USD 10,000 a ton, following China's stimulus announcement. Precious metals were the best performing sector delivering a 9.8% return in the third quarter. Gold continued to hit fresh record highs. The precious metal was supported by the bold start to Fed easing, which lowered the opportunity cost of holding the precious metal. Central bank demand also remained robust and investor appetite for gold via exchange traded funds has been picking up. Within the

Agriculture sector, livestock and softs performed positively, up respectively 3.3% and 13.3% while grains declined by 2.5%. Within the soft sector, coffee and cocoa rose significantly while favorable weather in the US contributed to a fall in the prices of corn and soybeans in August.

Quarter Four 2024

Commodities performed negatively in the fourth quarter, with the Bloomberg Commodity Excess Return index down 1.6%. Despite significant volatility, Energy was the best performing sector in Q4, returning 4.3%. Crude oil prices rose over 5% in December after OPEC+ decided to delay its planned production increase by three months to April 2025. Additionally, OPEC+ reduced the pace of its phase-out plan for production cuts, scaling back from 180k to 120k barrels per day. These measures reinforced confidence in a "soft OPEC+ floor" around \$70 per barrel for Brent crude. The geopolitical tensions in the Middle East and varying demand signals from China added layers of complexity to the sector's performance. Industrial metals were the worst performing sector, delivering a -8.8% return in Q4. The election of Donald Trump and the immediate read-through to climate-related policies as well as China stimulus disappointments have outweighed longer-term supply-side concern. The prospect of US tariffs, especially on China, has been a burden on copper prices. The price pullback has gone hand in hand with lower equity markets in China and in other emerging markets following the US presidential election. Precious metals ended the quarter in negative territory, down 3.3%. Gold prices dropped post US election as the USD surged, longer-term rates lifted, and the VIX fell to its lowest level since July. The Agriculture sector presented a mixed picture. Within the sector, soft commodities were up 2.7% with coffee and cocoa continuing to rise, driven by persistent weather-related production challenges and robust demand. Livestock also performed positively during the quarter, up 3.6%, while grains were down 2.7%. The diverse performance within the Agriculture sector highlights the varying impacts of weather conditions, market demand, and production dynamics.

Quarter One 2025

Commodities generated strong performances in the first quarter of the year, with the Bloomberg Commodity Excess Return index up 7.7%. All sectors performed positively except grains down 2.5% in the quarter. Precious metals were by far the best performing commodity sector, delivering 17.0%. Gold prices surged to record highs, driven by investors seeking safe-haven assets amid fears of a global trade war and economic recession, a weaker dollar and lower real rates. Silver followed, posting strong double digit returns in the first quarter. Energy was up 9.8% in Q1 driven by a combination of cold winter weather, fresh unexpected US sanctions on Russia energy and concerns over potential supply disruptions linked to possible US tariffs on Russia and geopolitical tensions with Iran. Industrial metals rose by 7.4% in the first quarter. Metals such as copper and aluminium saw increased demand ahead of potential import tariffs. US copper price premiums surged significantly compared to ex-US copper in February, driven by concerns over US tariff risks. Within the Agriculture sector, soft commodities and livestock performed positively, rising by 10.3% and 3.6% respectively, while grains were down 2.5% impacted by tariff-related risks and swings in energy prices.

Quarter Two 2025

Commodities delivered negative returns in the second quarter, with the Bloomberg Commodity Excess Return index down 4.1%. The Energy sector lost 11.9% and experienced significant volatility during the quarter. Crude prices plunged in April following US tariff announcements that fuelled fears of a global slowdown. In May, Brent crude oil prices recorded their first positive month of 2025, driven by a combination of tight market conditions due to limited real supply increases, and additional supply risks stemming from geopolitical events and natural disruptions. Crude oil prices continued their roller-coaster ride in June as escalating Middle East tensions briefly pushed Brent prices up on concerns over potential supply disruptions. As tensions eased and no actual interruptions materialized, prices quickly reversed, with Brent falling by more than USD 10/bbl in just two days. Precious metals were up 3.7% in the Q2. Gold extended its rally into early April as investors sought safety, briefly surging past \$3,400 per ounce at the height of trade-related market volatility. Gold prices then retreated as investor confidence shifted toward riskier assets amid easing policy uncertainty and expectations that US rate cuts will proceed gradually. Despite this pullback, gold demand remained underpinned by persistent geopolitical risks, trade policy uncertainty, and concerns over the US fiscal outlook. Industrial metals prices dropped significantly at the beginning of April on the back of US tariff announcements which spread fears that the global economy could end in a recession. The sector quickly rebounded as markets found brief reassurance in a subsequent 90-day pause on most tariffs (excluding China) and ended the quarter down 1.5%. Copper and aluminium posted gains during the quarter, supported by falling inventories that signalled robust end-user demand. Within the Agriculture sector, livestock performed positively during the quarter, up 7.4%, while soft commodities and grains were down 14.7% and 4.3%, respectively. Coffee and cocoa saw sharp price swings due to speculative trading and weather-driven supply concerns.

Note:

UBS (Irl) Fund Solutions plc – UBS CMCI Commodity Carry SF UCITS ETF and UBS (Irl) Fund Solutions plc – UBS CMCI Commodity Carry ex-Agriculture SF UCITS ETF have a levered calendar spread exposure to underlying commodity basket. Both funds offer investors exposure to the outperformance of the CMCI rolling methodology versus a traditional front month rolling future methodology. The strategy uses a future methodology with daily rolling and tenor diversification that aims to benefit from differential in carry costs associated with the rolling of short-term vs long-dated commodities futures contracts.

- UBS (Irl) Fund Solutions plc– UBS CMCI Commodity Carry SF UCITS ETF seeks to replicate the performance of UBS CM-BCOM Outperformance Strategy Index ex-Precious Metals 2.5 Leveraged Net of Cost Total Return Index. The index is long the CMCI BCOM Index and short the BCOM Index, excluding precious metals and with a 2.5x leverage.
- UBS (Irl) Fund Solutions plc– UBS CMCI Commodity Carry ex-Agriculture SF UCITS ETF seeks to replicate the performance of UBS CM-BCOM Outperformance Strategy Ex-Precious Metals, Agriculture, Livestock 2.5x Leveraged Net of Cost Total Return Index. The index is long the CMCI BCOM Index and short the BCOM Index, excluding precious metals, Agriculture & Livestock and with a 2.5x leverage.

Tracking Error and Annual Tracking Difference

The Tracking Error for each Sub-Fund represents the annualised volatility of the daily differences between the returns of the Sub-Fund* and the returns of the relevant Reference Index for the financial year ended 30 June 2025.

The Annual Tracking Difference is calculated as the difference between the performance of the Sub-Fund for the financial year ended 30 June 2025 and the performance of the relevant Reference Index over the same period.

The table below lists the Tracking Error (both anticipated and realised) and Annual Tracking Differences for the financial year ended 30 June 2025:

	Anticipated Tracking Error	30 June 2025 Realised Tracking Error	30 June 2025 Tracking Difference
UBS CMCI Composite SF UCITS ETF	0.04%	0.02%	(0.41%)
UBS BBG Commodity Index SF UCITS ETF	0.03%	0.01%	0.11%
UBS S&P 500 SF UCITS ETF ¹	0.00%	0.03%	0.06%
UBS MSCI USA SF UCITS ETF ¹	0.00%	0.03%	0.12%
UBS MSCI EM SF UCITS ETF	0.03%	0.01%	(0.16%)
UBS MSCI AC Asia Ex Japan SF UCITS ETF	0.03%	0.01%	(0.15%)
UBS MSCI ACWI SF UCITS ETF	0.02%	0.00%	(0.06%)
UBS CMCI Ex-Agriculture SF UCITS ETF	0.04%	0.02%	(0.40%)
UBS BBG Commodity CMCI SF UCITS ETF	0.04%	0.02%	(0.43%)
UBS CMCI Commodity Carry SF UCITS ETF	0.02%	0.00%	(0.04%)
UBS MSCI China A SF UCITS ETF ²	0.09%	0.13%	4.10%
UBS Euro Equity Defensive Covered Call SF UCITS ETF	0.02%	0.02%	0.07%
UBS Euro Equity Defensive Put Write SF UCITS ETF	0.02%	0.01%	0.09%
UBS US Equity Defensive Covered Call SF UCITS ETF	0.02%	0.02%	(0.11%)
UBS US Equity Defensive Put Write SF UCITS ETF	0.02%	0.02%	0.20%
UBS MSCI USA SF Index Fund	0.10%	0.03%	0.19%
UBS CMCI Commodity Carry ex-Agriculture SF UCITS ETF	0.03%	0.00%	(0.04%)
UBS CMCI Future Commodity SF UCITS ETF	0.04%	0.02%	(0.43%)
UBS S&P 500 Equal Weight SF UCITS ETF ³	0.10%	0.03%	0.08%
UBS USD Overnight Rate SF UCITS ETF ⁴	0.02%	0.02%	0.02%
UBS GBP Overnight Rate SF UCITS ETF ⁴	0.02%	0.01%	(0.09%)
UBS EUR Overnight Rate SF UCITS ETF ⁴	0.02%	0.01%	0.02%

¹ The fund is benchmarked to the net return index while the swap held by the sub fund returns the total return index due to 100% dividends received through the derivative structure. There is a known tracking error that exists between the total and net return index which is causing the realised tracking error difference to the anticipated tracking error.

² The high drag level is the main contributor to the tracking error as the multi day accrual over the weekend introduces large fund performance variation relative to the Index. The drag level was changed 8 times over the period which also contributed given the high volatility seen in the pricing of this swap market. This is the reason for the difference between the realised tracking error and the anticipated tracking error.

³ The Sub-Fund launched on 20 February 2025.

⁴ The Sub-Fund launched on 19 May 2025.

* The base currency and "A" share class has been used as representative of each Sub-Fund.

The Annual Tracking Difference for each Sub-Fund is the result of the cumulative impact of the drag level (being the total of Flat Fees and transaction costs) applied daily to the performance of each Sub-Fund during the financial year. The Annual Tracking Difference of 4.10% for the UBS MSCI China A SF UCITS ETF is primarily due to negative swap transaction costs leading to the Sub-Funds' outperformance of its reference benchmark.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND SOLUTIONS PLC

Report on the audit of the financial statements

Opinion

We have audited the financial statements of UBS (Irl) Fund Solutions plc ('the Company') for the year ended 30 June 2025, which comprise the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows and notes to the financial statements, including the material accounting policy information set out in note 1. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the company as at 30 June 2025 and of its profit for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard as applied to public interest entities issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND SOLUTIONS PLC

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the Company's ability to continue to adopt the going concern basis of accounting included:

- Confirming our understanding of management's going concern assessment process and also engaged with management to understand the key factors which were considered in their assessment;
- Obtaining management's going concern assessment, which covers a year from the date of approval of the financial statements;
- Reviewing and evaluating the reasonability of the key factors considered by management in making their assessment of going concern including consideration of the availability of liquid assets to meet ongoing operational costs and known future capital activity in the Company. In assessing these, we obtained and reviewed the liquidity terms which the Company offers to investors together with reviewing post year-end capital activity and enquiring of management as to whether there are any subsequent events, including performance, that might give rise to conditions which could lead management to discontinue the operations of the Company; and
- Reviewing the Company's going concern disclosures included in the annual report in order to assess that the disclosures were appropriate and in conformity with the reporting standards.

Conclusion

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND SOLUTIONS PLC

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Risk	Our response to the risk	Key observations communicated to the Board of Directors
<p>Existence of financial assets and financial liabilities at fair value through profit or loss</p> <p>We have considered existence of financial assets at fair value through profit or loss (with a fair value of USD 17,541,393,842 (2024: USD 13,404,774,695) and financial liabilities at fair value through profit or loss (with a fair value of USD Nil (2024: USD Nil)) as a key audit matter as it is a key driver of the Company's performance and net asset value.</p> <p>Refer to Note 5 in the financial statements.</p>	<p>We obtained the listing of financial assets and financial liabilities at fair value through profit or loss as at 30 June 2025 from the Administrator.</p> <p>We assessed the reasonableness of the existence for all financial assets and financial liabilities at fair value through profit or loss by:</p> <ul style="list-style-type: none">► obtaining an understanding and evaluating the key controls that have been implemented over the reconciliation process for financial assets at fair value through profit or loss. This includes obtaining the service auditor's report of the Administrator and Depository and identifying the key controls in place at the Administrator and Depository over the investment reconciliation process► obtaining independent confirmations directly from the Counterparty and Depository of each of the financial assets at fair value through profit or loss held at year-end and investigating any material differences identified to confirm the existence of these financial assets at fair value through profit or loss.	<p>No issues have been noted from the performance of our procedures over this key audit matter.</p>

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND SOLUTIONS PLC

Our application of materiality

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

Materiality

Materiality is the magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

We determined materiality for the Company to be 0.5% of each sub-fund's Net Asset Value (2024: 0.5%). We believe that Net Asset Value provides us with appropriate measurement basis since the users of the financial statements may focus more on this than on earnings.

Performance materiality

Performance materiality is the application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

On the basis of our risk assessments, together with our assessment of the Company's overall control environment, our judgement was that performance materiality was 75% of our planning materiality (2024: 75%). We have set performance materiality at this percentage due to our knowledge of the Company's industry.

Reporting threshold

Reporting threshold is an amount below which identified misstatements are considered as being clearly trivial.

We agreed with the Board of directors that we would report to them all uncorrected audit differences in excess of 5% (2024: 5%), of our defined materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

An overview of the scope of our audit report

Tailoring the scope

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the company. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the company and effectiveness of controls, including controls and changes in the business environment when assessing the level of work to be performed. All audit work was performed directly by the audit engagement team.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND SOLUTIONS PLC

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2014

In our opinion, based solely on the work undertaken in the course of the audit, we report that:

- the information given in the directors' report for the financial year ended for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report, other than those parts relating to sustainability reporting where required by Part 28 of the Companies Act 2014, has been prepared in accordance with applicable legal requirements.

We have obtained all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

In addition we report, in relation to information given in the Corporate Governance Statement on pages 12 to 14, that:

- based on knowledge and understanding of the company and its environment obtained in the course of our audit, no material misstatements in the information identified above have come to our attention;
- based on the work undertaken in the course of our audit, in our opinion:
 - the description of the main features of the internal control and risk management systems in relation to the process for preparing the financial statements are consistent with the financial statements and have been prepared in accordance with the Companies Act 2014; and
 - the Corporate Governance Statement contains the information required by the Companies Act 2014.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND SOLUTIONS PLC

Matters on which we are required to report by exception

Based on the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures required by sections 305 to 312 of the Act, which relate to disclosures of directors' remuneration and transactions are not complied with by the Company. We have nothing to report in this regard.

Respective responsibilities

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 15, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as going concerns, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud, that could reasonably be expected to have a material effect on the financial statements. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. In addition, the further removed any non-compliance is from the events and transactions reflected in the financial statements, the less likely it is that our procedures will identify such non-compliance. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the company and management.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND SOLUTIONS PLC

Our approach was as follows:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the company and determined that the most significant are the Companies Act 2014, the Undertaking for Collective Investment in Transferable Securities pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision And Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.
- We understood how UBS (Irl) Fund Solutions plc is complying with those frameworks by updating our understanding of the adequate system of internal control in place. We also considered the existence of independence service providers, proper segregation of duties and the regulated environment in which the Company operates, which may reduce opportunities for fraud to take place.
- We assessed the susceptibility of the company's financial statements to material misstatement, including how fraud might occur by management override of controls.
- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved inquiries to those charged with governance into possible instances of non-compliance with laws and regulations, review of board meeting minutes during the year and obtaining representation from the management.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: https://iaasa.ie/wp-content/uploads/docs/media/IAASA/Documents/audit-standards/Description_of_auditors_responsibilities_for_audit.pdf. This description forms part of our auditor's report.

with confidence**

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND SOLUTIONS PLC

Other matters which we are required to address

We were appointed by the Board of Directors on 23 October 2020 to audit the financial statements for the year ending 30 June 2021 and subsequent financial periods. The period of total uninterrupted engagement including previous renewals and reappointments of the firm is 5 years.

The non-audit services prohibited by IAASA's Ethical Standard were not provided to the company and we remain independent of the company in conducting our audit.

Our audit opinion is consistent with the additional report to the Board of Directors.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

For The Financial Year Ended 30 June 2025

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The material accounting policies applied in the preparation of these financial statements are set out below. The policies have been consistently applied in the financial year, and comparative financial year presented, unless otherwise stated.

(a) Basis of Preparation

These financial statements for the financial year ended 30 June 2025 have been prepared in accordance with International Financial Reporting Standards as adopted by the EU ("IFRS"), the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations"); and under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). References to statutes, regulations and laws shall include any amendments thereto.

The comparative figures are for the financial year ended 30 June 2024.

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets, financial liabilities and derivative financial instruments at fair value through profit or loss.

New standards, amendments and interpretations issued and effective for the financial year beginning 1 July 2024

A number of new standards and amendments to standards are effective for the financial year beginning 1 July 2024. Adoption of these standards did not have a material impact on the Company's financial position, performance or disclosures on the Sub-Funds:

Standard:	Narrative:	Effective Date:
Amendments to IAS 1	Classification of Liabilities as Current or Non-Current Lease Liability in a Sale and Leaseback	1 January 2024
Amendments to IFRS 16 Amendments to IAS 7 and IFRS 7	Disclosure of Supplier Finance Arrangements	1 January 2024

New standards, amendments and interpretations issued but not effective for the financial year beginning on or after 1 July 2024

A number of new standards, amendments to standards and interpretations are issued but not yet effective for financial year beginning 1 July 2024, and have not been early adopted in preparing these financial statements. The Company had assessed the impact of these standards to its financial position, performance or disclosures on the Sub-Funds. As at 30 June 2025, the Company do not expect a material impact on the Sub-Funds.

Standard:	Narrative:	Effective Date:
Amendments to IAS 21	Lack of Exchangeability Classification and Measurement of Financial Instruments Contract Referencing	1 January 2025
Amendments to IFRS 9 and IFRS 7	Nature-dependent Electricity	1 January 2026
Amendments to IFRS 9 and IFRS 7	Annual Improvements to IFRS Accounting Standards	1 January 2026
Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10, IAS 7	Presentation and Disclosure in Financial Statements Subsidiaries without Public Accountability: Disclosures	1 January 2026
IFRS 18		1 January 2027
IFRS 19		1 January 2027

(b) Significant accounting estimates and judgements

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting year are outlined below.

Going concern

The Company's management has made an assessment of the Company's ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future, being at least the next twelve months subsequent to the approval of the financial statements.

Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern.

Fair value of financial derivative instruments

When the fair value of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of liquidity and model inputs such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The models are calibrated regularly and tested for validity using prices from any observable current market transactions in the same instrument (without modification or repackaging) or based on any available observable market data. As at 30 June 2025 and 30th June 2024, no positions were fair valued using such a mathematical model.

(c) Foreign currency translation

(i) Functional and presentation currency

In accordance with IAS 21, items included in the individual Sub-Fund's financial statements are measured using the currency of the primary economic environment in which it operates and in which the majority of its activity is conducted (functional currency). The functional currency is also the presentation currency for each Sub-Fund. The functional currencies of the individual Sub-Funds are set out in the General Information.

Each individual Sub-Fund has adopted its functional currency as its presentation currency.

The combined financial statements are presented in U.S. Dollar ("USD"), being the functional and presentational currency of the Company as the Board of Directors considers the U.S. Dollar to be the currency that most faithfully represents the currency in which the majority of the Sub-Funds of the Company measure their performance and report their results, as well as the currency in which they receive subscriptions from their investors.

(ii) Combined Financial Statements

(i) For the purpose of producing the Combined Statement of Financial Position, assets and liabilities, including net assets attributable to holders of Redeemable Participating Shares of each Sub-Fund whose presentation currency is not USD are translated from its presentation currency to USD at the closing rate at the Statement of Financial Position date; and

(ii) For the purpose of producing the Combined Statement of Comprehensive Income, the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders and Combined Statement of Cash Flows, the average exchange rates for the respective financial year are used to convert into USD, the respective statements of the Sub-Funds with a presentation currency other than USD. The currency gain or loss on retranslation of opening net assets attributable to redeemable participating shareholders at closing rates and translation of the Combined Statement of Comprehensive Income and the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders at average rates is included in the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders. This translation adjustment does not impact the net asset value per share of any of the individual Sub-Funds.

(iii) Transactions and balances

Foreign currency transactions are translated into the functional currency of each Sub-Fund using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions together with gains and losses from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

Proceeds from subscriptions and amounts paid on redemption of Redeemable Participating Shares are translated at average rates, which approximate the rates prevailing at the dates of the transactions. Translation differences on non-monetary items, such as equities, held at fair value through profit or loss are reported as part of the net gain/(loss) on financial instruments at fair value through profit or loss.

All other exchange gains and losses are presented in the Statement of Comprehensive Income. Monetary foreign currency denominated assets and liabilities are translated into the functional currency using the exchange rate prevailing at the Statement of Financial Position date.

(d) Financial assets and liabilities at fair value through profit or loss

(i) Classification

The Company classifies its investments in equity securities and financial derivative instruments, based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets and financial liabilities is managed and performance is evaluated on a fair value basis. Consequently, all investments, including derivatives are measured at fair value through profit or loss.

The Company's policy requires the Investment Manager and the Board of Directors to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

(ii) *Recognition, derecognition and measurement*

Regular purchases and sales of investments are recognised on the trade date, the date on which the Sub-Fund contracts to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Fund has transferred substantially all risks and rewards of ownership.

(iii) *Subsequent measurement*

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the "financial assets or financial liabilities at fair value through profit or loss" category are presented in the Statement of Comprehensive Income within net gain/(loss) on financial assets at fair value through profit or loss in the financial year in which they arise.

(iv) *Fair value*

The fair value of financial assets and liabilities traded in active markets (such as equities and publicly traded derivatives) are based on quoted market prices at the Statement of Financial Position date. The quoted market prices used for financial assets and financial liabilities held by the Sub-Funds are the current last traded prices. Such prices are within the bid ask spread, which is most representative of fair value.

Funded and Unfunded swaps:

These swaps are recorded as financial assets or liabilities at fair value in the Statement of Financial Position. Due to the fact that these swaps are traded over-the-counter ("OTC"), there are no prices available on a market exchange for these swaps. The fair values are provided by the counterparty and are independently validated by the Administrator, or the Investment Manager, on behalf of the Company. Swaps derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. Depending on the product and the terms of the transaction, the value of the swap can be estimated by the counterparty using a series of inputs that are observed from actively quoted markets such as issuer details, indices, spreads, interest rates, curves, dividends and exchange rates.

(e) *Realised and unrealised gains and losses on financial assets and financial liabilities*

Gains and losses realised on the sale of all financial assets and liabilities carried at fair value through profit or loss are recognised in the Statement of Comprehensive Income. The calculation of realised gains and losses on sales of all financial assets and liabilities is made on the basis of weighted average cost.

Changes in unrealised gains and losses on financial assets and liabilities at fair value through profit or loss arising during the financial year are included in net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

(f) *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount is reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(g) *Investments sold receivable and investments purchased payable*

Investments sold receivable and investments purchased payable represent amounts receivable and payable respectively, for transactions contracted for but not yet delivered at the end of the financial year.

(h) *Redeemable Participating Shares*

Each Sub-Fund issues Redeemable Participating Shares, which are redeemable at the holder's option and are classified as financial liabilities in accordance with IAS 32. Redeemable Participating Shares can be put back to the Sub-Fund at any time for cash equal to a proportionate Share of the Sub-Fund's Net Asset Value.

The Redeemable Participating Share is carried at the redemption amount that is payable at the Statement of Financial Position date if the holder exercises the right to put the Share back to the Sub-Fund.

Redeemable Participating Shares are issued and redeemed at the holder's option at prices based on the Sub-Fund's Net Asset Value ("NAV") per Share at the time of issue or redemption. The Sub-Fund's NAV per Share is calculated by dividing the net assets attributable to the holders of Redeemable Participating Shares by the total number of outstanding Redeemable Participating Shares. Net Assets are valued for dealing purposes in accordance with the provisions of the Company's regulations.

(i) *Income*

Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within net gain/(loss) on financial assets at fair value through profit or loss when the Sub-Fund's right to receive payments is established.

The Sub-Funds can accrue income within swap positions and this income is accounted for in the measurement of the fair value of these swaps. Such income is recognised in the Statement of Comprehensive Income within net gain/(loss) on financial assets at fair value through profit or loss.

(j) *Drag level and Flat Fees*

The Drag Level is the amount as calculated daily by which the performance of a Share Class of a Sub-Fund is less than the performance of the relevant Reference Index on any day. The Drag Level comprises of Flat Fees and all transaction costs on a historical basis.

Flat Fees represent Sub-Fund fees and costs. The Flat Fee amount is stated in the Prospectus Supplement for each Sub-Fund as a percentage of the NAV of each Share Class. It represents the maximum Sub-Fund fees and costs payable by each Sub-Fund but excludes certain swap based transaction and related costs. Where the actual Sub-Fund fees and costs exceed the Flat Fee, the Promoter may pay the excess and does not subsequently charge the Sub-Fund.

Transaction costs are included in the net gain/(loss) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income. The Flat Fees are recognised within the operating expenses in the Statement of Comprehensive Income.

(k) *Collateral*

Under the relevant swap agreement, the approved counterparty (UBS AG) is required to provide collateral to the Company in order to reduce the Company's risk exposure to the approved counterparty. Investment collateral is recognised on a trade date basis. Cash received as collateral is recorded as an asset on the Statement of Financial Position and is valued at its fair value. A related liability to repay the collateral is recorded as a liability on the Statement of Financial Position and is also valued at fair value. See Note 5(b) of these financial statements for further details of the collateral held at 30 June 2025 and 30 June 2024. Non-cash collateral received by the Sub-Funds is not rehypothecated and therefore does not form part of the Net Asset Value of the Sub-Fund and not recognised on the Statement of Financial Position in line with the requirements of IFRS.

(l) *Distributions*

Distributions with an ex-date during the financial year under review are recognised as finance costs in the Statement of Comprehensive Income.

(m) *Asset pool*

The investments held by the asset pool (the "Pool") are attributed to each of the relevant Sub-Funds on the basis of the ownership ratio prevailing on the reporting date, and are disclosed as assets of each relevant Sub-Fund in their Statements of Financial Position and Schedules of Investments. The ownership ratio of each Sub-Fund's share of the assets of the Pool is tracked by the Administrator. Realised and unrealised gains or losses on assets in the Pool are attributed to each relevant Sub-Fund on the basis of the ownership ratio. The return on the asset pool is paid out to the counterparty through unfunded total return swaps.

(n) *Transaction costs*

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

Transaction costs on the purchase and sale of swaps are included in the purchase and sale price of the investment. These are separately identifiable and disclosed in Note 2 of these financial statements. Transaction costs on purchases and sales of equities are included in net gain/(loss) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income for each Sub-Fund.

(o) *Share class allocations*

Income, expenses (excluding class specific expenses) and realised/unrealised gains/losses pertaining to the Sub-Funds are allocated proportionately to each class of shares based upon the relative NAV of outstanding shares of each class at the beginning of the day (after adjusting for subscriptions, repurchases and distributions affecting the respective classes). Class-specific expenses are charged directly to the applicable class of shares.

(p) *Swap receivable and swap payable*

The swap receivable is due from the swap counterparty in respect of sale of swap investments. The Swap payable is due to the swap counterparty in respect of purchase of swap investments.

(q) *Expenses*

Expenses are accounted for on an accrual basis. Expenses are charged to the Statement of Comprehensive Income.

(r) *Segment reporting*

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Investment Manager.

(s) *Cash and cash equivalents**

All cash and cash equivalents are comprised of cash balances held within State Street Bank and Trust Company's ("State Street") custodian network and net unrealised gains and losses on open spot foreign currency exchange contracts. Certain cash balances may be held by sub-custodians, as approved and appointed by State Street, in markets where State Street does not operate as a depositary. Excess cash held with State Street is automatically swept overnight into share of an underlying money market investment fund, namely, State Street USD Liquidity LVNAV Fund. Cash and cash equivalents are carried at amortised cost which approximates its fair value.

As at 30 June 2025 and 30 June 2024, none of the Funds are highly leveraged.

* A separate cash account is opened at the umbrella level in different currencies (the "Umbrella Cash Account"). The Umbrella Cash Account is held with the Depositary and is solely used for fee and expense processing related to the Funds and the Company. The Umbrella Cash Account is excluded in the regular NAV calculation of the share-classes as it serves as a transit account for the fee and invoice payment process. The Umbrella Cash Account is subject neither to fees nor interest. As at 30 June 2025, the total balance of the Umbrella Cash Account amounted to USD 6,016,610 (30 June 2024: USD 1,803,678). This Umbrella Cash Account is receivable by the Distributor. This amount is not recognised on the Funds' or Company's Statement of Financial Position as at 30 June 2025 and is noted here only.

2. FEES AND EXPENSES

The following fees will be incurred on each share by holders of Redeemable Participating Shares (and will not be incurred by the Company on behalf of the relevant Sub-Fund, and accordingly will not affect the NAV of the relevant Share Class of the Sub-Fund) with exception for the UBS MSCI USA SF Index Fund:

Class "A"/"A-UKdis"	
Subscription Charge	0%
Redemption Charge	0%
Exchange Charge	Up to 3%
Primary Market Transaction Costs	Up to 1%

For the UBS MSCI USA SF Index Fund the following fees will be incurred on each Share by Shareholders (and will not be incurred by the Company on behalf of the Sub-Fund, and accordingly will not affect the Net Asset Value of the relevant Share Class of the Sub-Fund):

Class "A"/"A-UKdis"	
Subscription Charge	Up to 5%
Redemption Charge	Up to 3%
Exchange Charge	Up to 3%
Primary Market Transaction Costs	Up to 1%

Separate to and distinct from the Subscription Charge, Redemption Charge, Exchange Charge and Primary Market Transaction Charge, which shall be deducted from the investment amount received from an investor or deducted from the redemption proceeds payable to the investor or used to purchase the shares of the new class (as appropriate), a Flat Fee will be incurred by the Company on behalf of a Sub-Fund and will affect the NAV of the relevant Share Class of the Sub-Fund. These Flat Fees cover the fees of the service providers, including the Manager, Investment Manager, Index Licensee, Depositary and Administrator. The Promoter may discharge fees in the event the Flat Fees level is exceeded. The fees are accrued daily based on the NAV attributable to each Share Class.

The following Flat Fees rates were effective as at 30 June 2025 and 30 June 2024, as outlined below:

Sub-Fund	CCY	Effective as at 30 June 2025 Class "A" / "A-acc"	Effective as at 30 June 2024 Class "A" / "A-acc"

Total Expense Ratios

Total Expense Ratio "TER", this ratio is calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER of collective investment schemes" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets. For newly launched share classes the total operating expense figure included in the TER has been annualised.

3. RELATED PARTY TRANSACTIONS

In the opinion of the Directors, the Investment Manager, the Manager, the Distributor, the Promoter, swap counterparty, Authorised Participant, Swiss representative agent, Swiss paying agent, UK facilities agent, executing broker to the asset portfolio and the EEA Facilities Agent and the Directors are related parties under IAS 24 "Related Party Transactions". These entities, along with the names of Directors of the Company, are listed on the Company Information pages of this annual report.

(i) Directors

Director Naomi Daly is an Independent Director of the Manager, a subsidiary of UBS AG.

Director William Kennedy was appointed on 19 September 2024 and is a non-executive director of the Manager, a subsidiary of UBS AG.

Director Gavin Byrnes was appointed on 13 August 2025 and is a non-executive director of the Manager, a subsidiary of UBS AG.

Director Alan White is an employee of the Manager. At the financial year end 30 June 2025 and 30 June 2024, Alan White and an employee of the Manager held a €1 subscriber share each in the Company.

Director Marie Antoinette Petrini was an employee of UBS Europe SE, Madrid branch and resigned on 19 June 2025.

Director Alessandra Calabretta was appointed on 19 June 2025 and is also an employee of UBS Asset Management (Italia) SGR SpA.

With the exception of the subscriber share noted above, none of the Directors had holdings in any of the Sub-Funds as at 30 June 2025 or as at 30 June 2024.

Director Markus Goetschi is an employee of the Distributor, UBS Asset Management Switzerland AG.

Directors who are employees of UBS Group AG, or any of its subsidiaries do not earn any additional remuneration in respect of their roles as Directors of the Company.

For the financial year ended 30 June 2025, Directors fees amounting to EUR 68,250 (30 June 2024: EUR 65,000) were incurred.

As at 30 June 2025, EUR 26,125 was payable to Directors (30 June 2024: EUR 16,250).

(ii) Cash Collateral

Cash collateral received by the Sub-Funds from the swap counterparty may be reinvested in the UBS (Irl) Fund plc - Select Money Market Fund—EUR, the UBS (Irl) Fund plc - Select Money Market Fund—GBP and the UBS (Irl) Fund plc - Select Money Market Fund—USD, managed by a related party UBS AG (and affiliates). Management fees are charged by UBS Fund Management (Ireland) Limited in relation to the investments by the Company into these funds. For more information about collateral refer to Note 1(k) section of Material Accounting Policies.

Details of the cash collateral reinvested into these funds as of 30 June 2025 and 30 June 2024, in the base currency of the respective Sub-Fund, are included in the tables below:

As at 30 June 2025*	UBS (Irl) Fund plc - Select Money Market Fund—EUR	UBS (Irl) Fund plc - Select Money Market Fund—GBP	UBS (Irl) Fund plc - Select Money Market Fund—USD

The Manager fees and Investment Manager fees are included in the operating expenses in the Statement of Comprehensive Income.

For more information about Drag Fees, Flat Fees and Transaction Fees please refer to Note 2.

UBS AG, the parent company of the Manager, is the sole counterparty to the funded and unfunded swaps held by each of the Sub-Funds. The swaps held by each Sub-Fund are set out in the respective schedule of investments. UBS AG has also placed collateral with the Sub-Funds in relation to the funded swaps. Details of this collateral are outlined in Note 5(e).

UBS AG is also the Authorised Participant and also acts as market maker on the SIX Swiss Exchange, XETRA exchanges, the London Stock Exchange and the Borsa Italiana exchange.

UBS Fund Management (Switzerland) AG is the Swiss Representative. UBS AG as Authorised Participant held 100% (30 June 2024: 100%) of the Sub-Funds on the primary share register at 30 June 2025 and 30 June 2024, the majority of which are re-sold on the secondary market. UBS Switzerland AG is the Swiss Paying Agent.

4. SHARE CAPITAL

Authorised

The authorised share capital of the Company is 2 Subscriber Shares ("Subscriber Shares") of €1 each and 1,000,000,000,000 shares of no par value initially designated as unclassified shares and available for issue as Shares. The Subscriber Shares do not form part of the NAV of the Company and are thus disclosed in the financial statements by way of this note only. In the opinion of the Directors, this disclosure reflects the nature of the Company's business as an investment fund.

Redeemable Participating Shares

The issued Redeemable Participating Share capital for each Sub-Fund is at all times equal to the NAV of that Sub-Fund. Redeemable Participating Shares are redeemable at the holders' option and are classified as financial liabilities. The Redeemable Participating Shares may also be bought and sold in a secondary market where such a market exists.

The movement in the number of Redeemable Participating Shares during the financial year ended 30 June 2025 is as follows:

	Opening Balance	Redeemable Participating Shares subscribed	Redeemable Participating Shares redeemed	Closing Balance	Proceeds from Redeemable Participating Shares subscribed	Payment for Redeemable Participating Shares redeemed

5. FINANCIAL RISK MANAGEMENT

The Sub-Funds' activities expose them to a variety of financial risks: market risk (including market price risk, currency risk, fair value interest rate risk and cash flow interest rate risk), credit risk, liquidity risk and capital risk.

Global Exposure

The Company uses the commitment approach to monitor Global Exposure.

General risk management process

The Company has been authorised by the Central Bank of Ireland (the "Central Bank") as a UCITS company in accordance with the UCITS Regulations (the "Directive"). As such, it is subject to the investment and management restrictions prescribed within the Directive.

The Directive defines various investment parameters with the aim of limiting the market risk, counterparty risk and liquidity risk of a Sub-Fund. The Company and its delegates ensure ongoing compliance with these limits.

The Sub-Funds are non-discretionary and systematic in their investment approach. The process centres on maintaining exposure to the pre-defined strategy or index during the life of the Sub-Fund.

All of the Sub-Funds are limited in the exposure they can achieve by the Directive, the application of a non-discretionary investment approach and the additional restrictions described in the offering documentation, (Company Prospectus and Sub-Fund Supplement), collectively called the "Investment Rules".

Market risk, credit risk and liquidity risk are achieved within the Sub-Funds by maintaining the Company's exposure within the Investment Rules.

The ultimate responsibility for monitoring that a Sub-Fund's investments are managed in line with the Investment Rules belongs to the Board of Directors (the "Board"). The Board has delegated the monitoring activity to the Investment Manager. The Board receives regular reports from the Investment Manager and the Depositary of the Company in order to bring to their attention any breaches and compliance issues.

(a) Market risk management and oversight

The Company employs through its service providers a risk management process which enables it to monitor, measure and manage at any time certain risks of a Sub-Fund's Financial Derivative Instruments ("FDIs") positions and a process for accurate and independent assessment of the value of Over the Counter ("OTC") derivatives.

The Sub-Funds do not employ FDIs for Efficient Portfolio Management ("EPM") purposes, with the exception of Sub-Funds which have issued share classes denominated in a currency different from the relevant base currency. In such circumstances, the Sub-Funds enter one or more swaps in the currency of the relevant non base currency share class, which has the effect of reducing the currency risk between the base currency and the currency of the share class. These non-base currency swaps are listed in the Schedule of Investments.

The cost and revenue of these EPM techniques for financial year ended 30 June 2025 and 30 June 2024 are included in the net gain/(loss) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income.

All of the Sub-Funds are index trackers and passive. For Sub-Funds engaged in pooling, the price movement of the asset portfolio of transferable securities is completely negated by the Total Return Swaps ("TRS"), and consequently has no effect on the NAV.

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, interest rates or currencies. Each of these risks are described below.

(i) Market price risk

Market price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk and currency risk), whether those factors are caused by factors specific to individual financial instruments or its issuer, or other factors affecting similar financial instruments traded in the market. The Sub-Funds are exposed to market price risk through their portfolios of investments as part of the investment objectives. The overall market exposures are set out in the Schedules of Investment.

At 30 June 2025 and 30 June 2024, assuming all other factors remain unchanged, a 10% increase in relevant market prices would impact the NAV of each Sub-Fund as follows:

	CCY	30 June 2025 Impact of 10% increase	30 June 2024 Impact of 10% increase

1 The Sub-Fund launched on 20 February 2025.

2 The Sub-Fund launched on 19 May 2025.

A 10% decrease in prices in the markets in which the Sub-Funds invest would have the opposite impact. This sensitivity analysis is a relative estimate of risk and is not intended to be predictive of future results.

(ii) *Interest rate risk*

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in the prevailing interest rates.

The Sub-Funds may also be exposed to interest rate risk on cash collateral and cash balances held with the Depositary. The majority of each Sub-Fund's assets are non-interest bearing.

As a result, none of the Sub-Funds were materially directly affected by interest rate risk at 30 June 2025 and 30 June 2024.

(iii) *Currency risk*

Currency risk is the risk that the value of future monetary transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates. A Sub-Fund may hold assets and liabilities and invest in securities or other instruments denominated in currencies other than its functional currency. Consequently, a Sub-Fund can be exposed to the risk that the exchange rate of its functional currency relative to other currencies may change in a manner that has an effect on the value of the portion of the Sub-Fund's assets which are denominated in currencies other than its functional currency.

Sub-Funds which have issued share classes denominated only in the functional currency will invest in swaps denominated in that currency. Consequently, the Sub-Fund will not be exposed to currency valuation movements relating to the swap.

A Sub-Fund may issue share classes in multiple currencies. Consequently, the currency of a Sub-Fund share class may differ from the relevant functional currency. In general and as more fully outlined in the supplement of each Sub-Fund, the swaps in which a Sub-fund invests are denominated in the currency of the relevant share class of the Sub-Fund. Where a swap is denominated in a currency which differs from the functional currency, the swap will typically refer to a currency hedged version of the relevant index.

Consequently, the performance of a non-functional currency share class should be highly correlated with the performance of the functional currency share class of that Sub-Fund.

All currency exposure caused by investment in non-functional currency securities is offset by the terms of the total return swap. Consequently, movements between the functional currency and the currencies in which the securities are denominated will not impact the performance of the Sub-Fund.

The currency exposures outlined in the table below reflects the conversion of non-functional currency swaps related to non-functional currency share classes back to the functional currency of the Sub-Fund for the purposes of these accounts, and not economic currency exposures relevant to investors in those non-functional share classes.

The table below summarises the sensitivity of the NAV of each Sub-Fund to changes in foreign exchange movements at 30 June 2025 and 30 June 2024. The analysis is based on the assumptions that the relevant foreign exchange rates increased by 5% against the functional currency of each Sub-Fund with all other variables held constant.

	CCY	30 June 2025 Impact of 5% increase	30 June 2024 Impact of 5% increase
UBS CMCI Composite SF UCITS ETF	USD	35,259,662	45,273,537

¹The Sub-Fund launched on 20 February 2025.

²The Sub-Fund launched on 19 May 2025.

The above sensitivity is an accounting measure only and ignores the impact of the inherent share class currency hedging noted above.

This sensitivity analysis is a relative estimate of risk and is not intended to be predictive of future results.

(iv) Concentration risk

Because the Company's assets may be invested in a limited number of investments which may be concentrated in a few countries the negative impact on the value of the Company's assets from adverse movements in a particular economy could be considerably greater than if the Company were not permitted to concentrate its investments to such an extent.

Asset classifications are based on the domicile of the portfolio only (Reference Indices or Reference Strategies are not looked through).

The significant concentrations of each Sub-Fund's investments to particular countries by the Sub-Funds asset portfolio are disclosed in the following tables:

As at 30 June 2025

(b) Credit risk management and oversight

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

In order to achieve their investment objective, the Sub-Funds may invest the net proceeds of any issue of Shares in one or more OTC derivative contracts in the form of funded and unfunded swaps. The Sub-Funds' primary source of counterparty credit risk stems from the positive market value of the cash settled OTC derivatives. As detailed below, the Sub-Funds receive collateral from the counterparty to reduce counterparty risk.

The amounts of credit exposure for each Sub-Fund are represented by the carrying amounts of the assets held on the Statement of Financial Position. As at 30 June 2025 and 30 June 2024, the Sub-Funds have exposure to UBS AG, S&P rating: A+ (30 June 2024: A+) as counterparty to the swap contracts, and (in respect of the asset pools for the Sub-Funds with State Street Custodial Services (Ireland) Limited, S&P rating: A 30 June 2024: A) as Depositary. Bankruptcy or insolvency of the Depositary may cause the Company's rights with respect to securities held by the Depositary to be delayed or limited.

As a term of the agreement entered into between the Company and the counterparty to the OTC swaps, the counterparty provides collateral to the Company in order to reduce the Company's credit risk exposure. Investment collateral is recognised on a trade date basis. Investment collateral is held by the Depositary in segregated accounts for each Sub-Fund, and may not be re-pledged. The Company monitors the value of collateral daily in order to respect UCITS regulatory requirements. The Company appointed State Street Bank & Trust Company GmbH as its Collateral Agent.

The table below lists the swap value, collateral value and collateral ratio per Sub-Fund as at 30 June 2025.

Additional collateral disclosures are included in the Schedule of Collateral.

(c) Liquidity risk management and oversight

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Sub-Funds are exposed to the need to meet financial obligations resultant from the redemption of participating Sub-Fund Shares by investors.

All liabilities of the Sub-Funds are due within less than 3 months. The assets of the Sub-Fund must therefore be of sufficient liquidity to meet these liabilities on a timely basis. As a term of the swap agreement, the counterparty provides liquidity at least equivalent to the dealing frequency of the Sub-Fund. Additionally, the Company is entitled to limit the number of Shares of any Fund redeemed on any Dealing Day to Shares representing not more than 10% of the NAV of that Fund on that Dealing Day.

The Directors may at any time temporarily suspend the calculation of the Net Asset Value of any Fund and the subscription, redemption or exchange of Shares and the payment of redemption proceeds of any Class during any period when, as a result of political, economic, military or monetary events or any circumstances outside the control, responsibility and power of the Directors, disposal or valuation of the investments of the relevant Fund is not reasonably practicable without this being seriously detrimental to the interests of Shareholders of the relevant Fund. The Directors will advise the Administrator when to apply this based on reporting provided by the Administrator.

The Sub-Funds are exposed to daily cash redemptions of redeemable shares. They therefore invest the majority of their assets in investments that are traded in an active market and can be readily disposed of.

(d) Fair value estimation

The Company's policy on measuring the fair value of financial assets and liabilities is set out in Note 1(d) (iii) and (iv). The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires a level of judgement by the Directors, in consultation with the Investment Manager. The Directors, in consultation with the Investment Manager, consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include active listed equities. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include funded swaps and unfunded swaps.

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently. The Company did not hold any investments classified within Level 3 at 30 June 2025 or 30 June 2024.

The Funds recognise transfers between levels of the fair value hierarchy as at the end of the reporting period during which the change has occurred. The transfer is primarily due to the availability of quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs.

There were no transfers between levels during the financial year ended 30 June 2025 or financial year ended 30 June 2024.

The following tables analyse within the fair value hierarchy the Sub-Funds' financial assets and liabilities measured at fair value at 30 June 2025.

UBS CMCI Composite SF UCITS ETF	Level 1 USD	Level 2 USD	Level 3 USD	Total Fair Value USD
Financial Assets				
Financial assets at fair value through profit or loss:

There were no financial liabilities at fair value through profit or loss held by the UBS CMCI Future Commodity SF UCITS ETF at 30 June 2024.

IFRS 13 Fair Value Measurement

For each class of assets and liabilities not measured at fair value in the Statement of Financial Position but for which fair value is disclosed, IFRS 13 requires the Company to disclose the level within the fair value hierarchy which the fair value measurement would be categorised and a description of the valuation technique and inputs in the technique.

A significant proportion of the financial assets at fair value through profit or loss for all the Sub-Funds are based on quoted market prices in an active market, and therefore classified within Level 1, it follows that the most appropriate categorisation for net assets attributable to holders of redeemable participating shares within these Sub-Funds is Level 1 (30 June 2024: Level 1).

The carrying amounts of cash collateral, receivables, payables and due to counterparty amounts approximate their fair values.

(e) Netting

The Company has International Swaps and Derivatives Association master netting agreements (the "ISDA Agreements") in place with UBS AG under the OTC swap agreements. Master netting agreements provide for the net settlement of contracts with the same counterparty for a particular Fund in the event of default.

The amounts stated in the tables below are in base currency of the respective Fund.

	Derivative assets subject to a Master Netting Agreement	Related amounts not off-set in the statement of financial position			Net amount ¹ C=A-B ²		
		A Financial instruments	B Cash collateral ³	Non-cash collateral

None of the financial assets and liabilities are offset in the Statement of Financial Position. The disclosures set out in the tables below include the financial assets and liabilities that are subject to master netting arrangements.

The ISDA does not meet the criteria for offsetting in the Statement of Financial Position. This is because the Sub-Funds and their counterparty do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

The following tables present the Company's financial instruments by counterparty net of amounts available for offset under ISDA Agreements and net of the related collateral received by the Company as of 30 June 2025, shown in the base currency of each Sub-Fund. Swap receivable and swap payable amounts are not included in the tables and the Company does not intend to settle them on a net basis.

¹ Net amount represents the net amount receivable from the counterparty in the event of default.

² The standard requires a disclosure of the fair value of those financial instruments that have been pledged or received as collateral. However, it limits the total amount of potential set-off and collateral that an entity can disclose to the carrying value of the associated financial instrument.

³ Cash collateral is reinvested in the UBS (Irl) Fund plc. Please see Note 3 "Related Party Transactions" for further information.

The following tables present the Company's financial instruments by counterparty net of amounts available for offset under ISDA Agreements and net of the related collateral received by the Company as of 30 June 2024, shown in the base currency of each Sub-Fund.

³ Cash collateral is reinvested in the UBS (Irl) Fund plc. Please see Note 3 "Related Party Transactions" for further information.

(f) Efficient Portfolio Management (EPM)

The Company on behalf of a Sub-Funds may employ techniques and instruments relating to transferable securities and/or other financial instruments in which it invests for EPM purposes. Use of such techniques and instruments will generally be made for one or more of the following reasons; the reduction of risk, the reduction of cost and/or the generation of additional capital or income for the relevant Sub-Funds with an appropriate level of risk, taking into account the risk profile of the Sub-Funds.

The Sub-Funds do not employ financial derivative instruments ("FDIs") for efficient portfolio management purposes, with the exception of Sub-Funds which have issued share classes denominated in a currency different from the relevant base currency. In such circumstances, the Sub-Funds enter one or more swaps in the currency of the relevant non base currency share class, which has the effect of reducing the currency risk between the base currency and the currency of the share class. These non-base currency swaps are listed in the Schedule of Investments. The cost of these EPM techniques to the relevant share class of the relevant Sub-Fund for financial year ended 30 June 2025 and 30 June 2024 are presented in the following table and are included in net gain/(loss) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income. There was no revenue generated from these EPM techniques in the financial year ended 30 June 2025 and 30 June 2024.

Sub-Fund	CCY	Charge for financial year 30 June 2025	Charge for financial year 30 June 2024

Global Exposure

The Company uses the commitment approach to monitor Global Exposure.

All of the Sub-Funds are limited in the exposure they can achieve by the Directive, the application of a non-discretionary investment approach and the additional restrictions described in the offering documentation, (Company Prospectus and Sub-Fund Supplement), collectively called the "Investment Rules". Market risk, credit risk and liquidity risk are achieved within the Sub-Funds by maintaining the Company's exposure within the Investment Rules. The global exposure figures for the Sub-Funds as of 30 June 2025 and 30 June 2024 reflect the exposure generated from the reinvestment of cash collateral in Money Market Funds. The global exposure generated by FDI as of 30 June 2025 and 30 June 2024 is Nil for all Sub-Funds.

¹ The Sub-Fund launched on 20 February 2025.

² The Sub-Fund launched on 19 May 2025.

(g) Capital Management

The capital of the Company is represented by the net assets attributable to holders of redeemable participating shares. The amount of net assets attributable to holders of redeemable participating shares can change significantly on a daily basis, as the Company is subject to daily subscriptions and redemptions at the discretion of the holders of redeemable participating shares.

As a result, a redemption request may have a significant impact on the liquidity of the relevant Sub-Fund and its ability to continue as a going concern. See Liquidity Risk note above for details of how this risk is mitigated.

The Company's aim with respect to management of its capital is to safeguard its ability to continue as a going concern in order that each Sub-Fund may achieve its overall objective of long-term capital growth, and to maintain a strong capital base to support the development of each Sub-Fund's investment activities.

The Investment Manager monitors capital on the basis of the value of net assets attributable to holders of redeemable participating shares.

6. TAXATION

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight financial year beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a) A Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company; or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations and
- b) Certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations.
- c) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners (such as CREST) will not constitute a chargeable event. It is the current intention of the Directors that all the shares in the Company will be held in CREST or another recognised clearing system.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

7. EXCHANGE RATES

Except for those Sub-Funds noted below, the Sub-Funds financial statements are prepared in US Dollars (USD). The following exchange rates at the respective financial year/year end date have been used to translate assets and liabilities in other currencies to USD:

As at	30 June 2025	30 June 2024
CAD	1.3645	1.3684
CHF	0.7960	0.8986
CNY	7.1655	7.2661
DKK	6.3558	6.9582
EUR	0.8519	0.9331
GBP	0.7297	0.7911
HKD	7.8500	7.8074
ILS	3.3675	3.7672
JPY	144.4450	160.8600
NOK	10.1197	10.6475
SEK	9.5304	10.5902
SGD	1.2737	1.3553

The financial statements for UBS Euro Equity Defensive Covered Call SF UCITS ETF, UBS Euro Equity Defensive Put Write SF UCITS ETF and UBS EUR Overnight Rate SF UCITS ETF are prepared in Euro (EUR). The following exchange rates at the financial year end date have been used to translate assets and liabilities in other currencies to EUR:

As at	30 June 2025	30 June 2024
CHF	0.9344	0.9631
DKK	7.4608	-
ILS	3.9529	-
SEK	11.1873	11.3501
USD	1.1738	1.0718

The financial statement for UBS GBP Overnight Rate SF UCITS ETF is prepared in British Pounds (GBP). The following exchange rates at the financial year end date have been used to translate assets and liabilities in other currencies to GBP:

	30 June 2025	30 June 2024
CHF	1.0908	-
DKK	8.7097	-
EUR	1.1674	-
ILS	4.6147	-
SEK	13.0600	-
USD	1.3703	-

In respect of the aggregation of the Sub-Funds' financial statements, for those Sub-Funds with non USD base currencies, the following average exchange rates against USD were used in the preparation of Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and Statement of Cash Flows:

Average Rate for the financial year ended	30 June 2025	30 June 2024
EUR	0.9199	0.9247

Average Rate for the financial year ended	30 June 2025	30 June 2024
GBP	0.7731	-

8. DIVIDENDS

In relation to the accumulating (Acc) share classes, it is not the intention of the Directors to declare dividends in respect of any of the Sub-Funds. However, the Directors may, in their absolute discretion, determine to declare dividends in respect of any Share Class and Shareholders will be notified accordingly. Any dividends payable will be effected in accordance with the Dividend Policy stated in the Prospectus.

During the financial year ended 30 June 2025 a dividend was declared and paid for the following share classes:

Sub-Fund	Share Class	Ex-Date	Dividend Rate	Dividend
UBS MSCI ACWI SF UCITS ETF	hCHF Ukdls	2 August 2024	CHF 1.6496 per share	CHF 382,852

9. SOFT COMMISSION ARRANGEMENTS AND DIRECT BROKERAGE

There were no soft commission arrangements or direct brokerage arrangements in existence during the financial year ended 30 June 2025 or in the prior financial year.

10. OPERATING SEGMENTS

The Investment Manager makes the strategic resource allocations on behalf of the Sub-Funds. The Investment Manager is responsible for each Sub-Fund's entire portfolio and considers each Sub-Fund to have a single operating segment. The Investment Manager's asset allocation decisions are based on a single, integrated investment strategy, to deliver the performance of the relevant Reference Index or Reference Strategy of each Sub-Fund, and each Sub-Fund's performance is evaluated by reference to the relevant Reference Index or Reference Strategy. The income is generated from the portfolio, and the weightings of the countries in the Schedule of Investments are an approximation of the location of gains and losses for each segment. The Sub-Funds have no assets classified as non-current assets. Each Sub-Fund's investments expose it to the performance of the relevant Reference Index or Reference Strategy.

In respect of the funds established as exchange traded funds (ETFs), the Company permits subscriptions and redemptions solely with Authorised Participants. Investors (whether or not the ultimate beneficial owner or end-investor) may purchase and sell shares in the ETFs on exchanges or from the Authorised Participants - however, the Company does not regard such investors or related end-investors as its direct customers. The Company had a single Authorised Participant in respect of all its ETFs during the year, which was an entity within UBS Group AG group. The Authorised Participant provided the Company, in respect of the ETFs, with all its capital. Consequently, all income earned in respect of the ETFs (i.e. Net gain on financial assets at fair value through profit or loss) was generated from the capital supplied by the Authorised Participant.

13. CASH AT BANK AND ON DEPOSIT

There was no cash held by any Sub-Fund at 30 June 2025 (30 June 2024: Nil). Cash collateral received by the Sub-Funds from the swap counterparty is reinvested in the UBS (Irl) Fund plc - Select Money Market Fund—EUR, the UBS (Irl) Fund plc - Select Money Market Fund—GBP and the UBS (Irl) Fund plc - Select Money Market Fund—USD, managed by a related party, UBS AG (and affiliates).

14. SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR

The war in Ukraine and the ongoing conflict in the middle east have a material impact on financial markets, first and foremost on Russian, Ukrainian and Israeli securities but also on the wider markets globally. The situation remains very volatile and the Manager is closely monitoring in order to quickly take appropriate action to protect the interest of investors in our funds. It has put in place the necessary measures to at all times comply with applicable laws and regulations, in particular but not limited to the most recently enacted sanction regimes in the EU, Switzerland, UK and US. As we are experiencing serious trading limitations beyond sanctioned Russian securities, we are applying fair value pricing for all relevant securities where price quotes (if available) are not considered reflective of their current market value. Depending on the future evolution of financial markets there may be a further impact on investment strategies. It is unclear right now whether this will require the application of liquidity measures in certain Sub-Funds. These could include all such measures as indicated in the respective Sub-Fund prospectuses.

Financial markets entered a period of heightened volatility following the announcements made in the US on 2 April 2025, as they tried to absorb the implications of the larger than expected tariffs placed on trading partners and potential economic fallout resulting from widening trade tensions. The Manager continues to closely monitor the potential impact of these developments on the Sub-Funds. While the long-term implications remain uncertain, the Sub-Funds have not experienced any material disruption to operations or liquidity as of the reporting date.

Effective 12 May 2025, the Sub-Fund names have been updated and used throughout this Annual Report as follows:

Old Fund name	New Fund name

There have been no other significant events affecting the Company since the financial year end.

16. SEGREGATED LIABILITY

Each Sub-Fund will be responsible for paying its fees and expenses regardless of the level of its profitability. The Company has availed of the segregated liability provisions of the Companies Act 2014. The adoption of segregated liability ensures that liability incurred on behalf of a Sub-Fund will generally be discharged solely out of the assets of that Sub-Fund and there can generally be no recourse to other Sub-Funds to satisfy these liabilities. Notwithstanding the foregoing there can be no guarantee that should an action be brought against the Company in the court of another jurisdiction that the segregated nature of the Sub-Funds would necessarily be upheld.

17. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved by the Directors on 20 October 2025.

The table below lists the collateral holdings constituents grouped per country of incorporation as of 30 June 2025:

Country	Value in USD
France	373,582
Cash collateral ²	645,258,648
Total Collateral	645,632,230

The table below lists the value of collateral constituents by type of instruments and by rating of S&P as at 30 June 2025:

Type of Collateral	Rating	Value in USD
Bonds	AA-	373,582
Cash	not rated	645,258,648
Total		645,632,230

¹ Schedule of collateral is prepared based on data for 1 July which is representative of the data for 30 June.

² Cash collateral is reinvested in the UBS (Irl) Fund plc. Please see Note 3 "Related Party Transactions" for further information.

Appendix1

Remuneration Policy (Unaudited)

Remuneration Policy of the Manager

Background

UBS Fund Management (Ireland) Limited (the "Manager") has been authorised by the Central Bank of Ireland ("CBI") as UCITS Management Company under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "Regulations"). The Manager is subject to the relevant articles of the Regulations dealing with remuneration, including the Guidelines on Sound Remuneration Policies under the UCITS Directive (the "Guidelines") published by the European Securities and Markets Authority (ESMA/2016/575).

The Manager is a wholly owned subsidiary of UBS AG and is part of the UBS group. The Manager has a remuneration policy in place which is consistent with the UBS group remuneration policy. The Manager's policy was developed by senior management of the Manager, reviewed by the Human Resources function of UBS and approved by the Manager's board of directors. A summary of the key aspects of the UBS group remuneration practices is described in the following paragraphs.

UBS Compensation Governance and Philosophy

As determined in the Articles of Association and UBS's Organization Regulations, the UBS Group Compensation Committee supports the board of directors of UBS (the "BoD") in its duties to set guidelines on compensation and benefits, to oversee implementation thereof, to approve certain compensation and to scrutinize executive performance. The Compensation Committee consists of independent BoD members, who are elected annually by UBS shareholders at the Annual General Meeting (the AGM), and is responsible for governance and oversight of the UBS compensation process and practices. This includes the alignment between pay and performance, and ensuring that the compensation framework supports appropriate risk awareness and management, as well as appropriate risk-taking. In 2024, to additionally support the connection between the Compensation Committee and the Risk Committee, the Compensation Committee Chairperson was also a member of the Risk Committee. The Risk Committee, a committee of the BoD, works closely with the Compensation Committee with the goal of ensuring that the compensation framework appropriately reflects risk awareness and management, and supports appropriate risk-taking. It supervises and sets appropriate risk management and risk control principles and is regularly briefed on how risk is factored into the compensation process. It also monitors the involvement of Group Risk Control and Compliance and Operational Risk in compensation and reviews risk-related aspects of the compensation process.

All elements of pay are considered when making UBS compensation decisions. UBS regularly review its principles and compensation framework in order to remain competitive and

aligned with stakeholders' interests. In 2024, the UBS compensation framework remained broadly unchanged. UBS will continue to review our approach to salaries and performance awards, considering market developments, our performance and our commitment to deliver sustainable returns to shareholders.

UBS's compensation reinforces and aligns with the firm's culture and strategy, fosters engagement among employees and aligns their long-term interests with those of clients and stakeholders. The compensation structure encourages employees to have a focus on risk management and behave consistently with the firm's risk framework and appetite, thereby anticipating and managing risks effectively to protect UBS's capital and reputation. Compensation is appropriately balanced between fixed and variable elements and delivered over an appropriate period to support UBS's growth ambitions and sustainable performance. Compensation for each employee is based on individual, team, business division and Group performance, within the context of the markets in which UBS operates. At UBS, a holistic Total Reward approach is applied, generally consisting of fixed compensation (base salary and role-based allowances, if applicable), performance awards, pension contributions and benefits. UBS's Total Reward approach is structured to support sustainable results and growth ambitions. The Total Reward Principles apply to all employees globally, but may vary in certain locations due to local legal requirements, regulations and practices.

UBS's compensation philosophy focuses on balancing performance with appropriate risk-taking, retaining talented employees and shareholder returns. Its overall performance award pool funding percentage reduces as financial performance increases. In years of strong financial performance, this prevents excessive compensation and results in an increased proportion of profit before performance awards being available for distribution to shareholders or growing the Group's capital. In years where performance declines, the performance award pool will generally decrease; however, the funding percentage may increase. UBS's performance award pool funding framework is based on Group and business division performance, including achievements against defined performance measures. In assessing performance, UBS consider relative performance versus peers, market competitiveness of its pay position, as well as progress against strategic and integration objectives, including returns, risk-weighted assets and cost efficiency.

The Risk and Compliance functions support UBS's holistic reflection and consideration of the financial and non-financial impact (including reputation) of risk matters. UBS further considers the firm's risk profile and culture, the extent to which operational risks and audit issues have been identified and resolved, and the success of risk reduction initiatives including accountability for significant events. The funding for Group Functions is linked to overall Group performance and reflects

headcount, workforce location and demographics. For each functional area, quantitative and qualitative assessments evaluate service quality, risk management and financial achievements.

UBS's decisions regarding the performance award pool also balance consideration of financial performance with a range of factors, including the impact of litigation, regulatory costs, the effect of changes in financial accounting standards, capital returns and relative total shareholder return.

UBS Material Risk Takers and Key Risk Takers

For relevant EU- or UK-regulated entities, UBS identifies individuals who are deemed to be Material Risk Takers (MRTs) based on sectorial and / or local regulatory requirements, including the respective EU Commission Delegated Regulation, the fifth iteration of the EU Capital Requirements Directive (CRD V) and equivalent UK requirements, as applicable. This group consists of senior management, risk takers, selected staff in control or support functions and certain highly compensated employees. For 2024, UBS identified 1,274 MRTs in relation to its relevant EU or UK entities. Subject to individual or legal-entity level proportionality considerations, variable compensation awarded to MRTs is subject to additional deferral and other requirements. For CRD-relevant entities, these include a minimum deferral rate of 40% or 60% (depending on role / variable compensation level) on performance awards and delivery of at least 50% of any upfront performance award in UBS shares that are vested but blocked for 12 months after grant. Deferred awards granted to MRTs under UBS's deferred compensation plans for their performance in 2024 are subject to 6- or 12-month blocking periods post vesting and do not pay out dividends or interest during the deferral period. Additionally, MRTs are subject to a maximum ratio between fixed and variable pay. Across EU locations, the maximum variable to fixed compensation ratio is set to 200%, based on approval through relevant shareholder votes. For UK-regulated MRTs, the maximum ratio was set by UBS taking into account the business activities and prudential and conduct risks of the relevant legal entities. In addition, the maximum ratios were set considering the scenario that the relevant legal entities might exceed their financial objectives, and to align with the ratios applicable for GEB members on a communicated value basis. The maximum ratio for all UK-regulated MRTs was approved by the compensation committees of the relevant entities. For up to seven years after grant, performance awards granted to MRTs are subject to clawback provisions, which allow UBS to claim repayment of both the upfront and the vested deferred element of any performance award if an individual is found to have contributed substantially to significant financial losses for the UBS Group or UBS corporate structure in scope, a material downward restatement of disclosed results, or engaged in misconduct and / or failed to take expected actions, thus contributing to significant reputational harm.

Key Risk Takers (KRTs) are defined as those employees that, by the nature of their roles, have been determined to materially set, commit or control significant amounts of the firm's

resources and / or exert significant influence over its risk profile. This includes employees working in front-office roles, logistics and control functions. Identifying KRTs globally is part of our risk control framework and an important element in ensuring we incentivize only appropriate risk-taking. For 2024, in addition to GEB members, 835 employees were classified as KRTs throughout the UBS Group globally, including all employees with a total compensation exceeding USD / CHF 2.5m (Highly Paid Employees), who may not have been identified as KRTs during the performance year. In line with regulatory requirements, the performance of employees identified as KRTs during the performance year is evaluated by the control functions. In addition, KRTs' performance awards are subject to a mandatory deferral rate of at least 50%, regardless of whether the deferral threshold has been met (excluding KRTs with de minimis performance awards below a predetermined threshold where standard deferral rates apply). Consistent with all other employees, the deferred portion of a KRT's compensation is also subject to forfeiture or reduction if the KRT commits harmful acts.

UBS Fixed compensation

Employees' fixed compensation (e.g., base salary) reflects their level of skill, role and experience, as well as local market practice. Base salaries are usually paid monthly or fortnightly, in line with local market practice. UBS offers competitive base salaries that reflect location, function and role. Salary increases generally consider promotions, skill set, performance and overall responsibility. In addition to base salary, and as part of fixed compensation, some employees may receive a role-based allowance. This allowance is a shift in the compensation mix between fixed and variable compensation, not an increase in total compensation. It reflects the market value of a specific role and is fixed, nonforfeitable compensation. Unlike salary, a role-based allowance is paid only if the employee is in a specific role. Similar to previous years, 2024 role-based allowances consisted of a cash portion and, where applicable, a blocked UBS share award.

UBS provides a range of benefit plans, such as retirement benefits and health insurance, aiming to provide financial protection in case of significant life events, and support its employees' well-being and diverse needs. Retirement and other benefits are set in the context of local market practice and regularly reviewed for competitiveness. Pension plan rules in any one location are generally the same for all employees, including GEB members and other management. There are no enhanced or supplementary pension contributions for the GEB.

UBS Variable compensation

Most of UBS's employees are eligible for an annual performance award. The level of this award, where applicable, generally depends on the firm's overall performance, the employee's business division, team and individual performance, and

behaviour, reflecting their overall contribution to the firm's results. These awards are in line with applicable local employment conditions and at the discretion of the firm.

In addition to the firm's Pillars (capital strength, simplification/efficiency and risk management) and Principles (client centricity, connectivity, sustainable impact), Behaviours related to accountability with integrity, collaboration and innovation are part of the performance management approach. Therefore, when assessing performance, UBS considers not only what was achieved but also how it was achieved.

Underlining UBS's emphasis on sustainable performance and risk management, and its focus on achieving its growth ambitions, UBS delivers part of the employees' annual variable compensation through deferred compensation plans. UBS believes that its approach, with a single incentive decision and a mandatory deferral, is transparent and well suited to implementing its compensation philosophy and delivering sustainable performance. This aligns the interests of its employees and shareholders and appropriately links compensation to longer-term sustainable performance.

Deferred compensation is delivered through a combination of equity-based plans and a contingent capital plan. The equity-based plans are (i) the Long-Term Incentive Plan (LTIP) which is for UBS's GEB members, and (ii) the Equity Ownership Plan (EOP), which is for all other employees and which primarily aligns employee interest with those of UBS's shareholders. The Deferred Contingent Capital Plan (DCCP) aligns employees' interests with the interests of debt holders.

The mandatory deferral approach applies to all employees with regulatory-driven deferral requirements or total compensation greater than USD / CHF 300,000. Certain regulated employees, such as Senior Management Functions (SMFs) and Material Risk Takers (MRTs), are subject to additional requirements (e.g., more stringent deferral requirements, additional blocking periods). In addition, SMFs and MRTs receive 50% of their non-deferred portion in the form of immediately vested shares, which are blocked for 12 months after grant.

The deferred amount increases at higher marginal rates in line with the value of the performance award. The effective deferral rate therefore depends on the amount of the performance award and the amount of total compensation. UBS believes its deferral regime has one of the longest vesting periods in the industry. The weighted average deferral period for non-regulated employees is 4.4 years for GEB members, 3.8 years for MDs receiving Long Term Incentive Plan ("LTIP") and 3.5 years for other employees. Additionally, from time to time, UBS may utilize alternative deferred compensation arrangements to remain competitive in specific business areas. To further promote sustainable performance, all of UBS's deferred compensation plans include employment conditions and malus conditions. These enable the firm to reduce or fully forfeit unvested deferred awards under certain circumstances, pursuant to performance and harmful acts provisions. In addition, forfeiture is triggered in cases where employment has

been terminated for cause. UBS's share delivery obligations related to notional share awards are satisfied by delivering treasury shares, which are purchased in the market, to employees at vesting.

The Equity Ownership Plan (the "EOP") is the deferred compensation plan for employees that are subject to deferral requirements but do not receive LTIP awards. For the 2024 performance year, we granted EOP awards to 4,123 employees. Delivering sustainable results is a key objective for UBS. EOP creates a direct link with shareholder returns as a notional equity award and has no upward leverage. This approach promotes growth and sustainable performance. EOP awards generally vest over three years.

The Deferred Contingent Capital Plan ("DCCP") is a key component of UBS's compensation framework and supports alignment of the interests of senior employees with those of UBS's stakeholders. All employees subject to deferral requirements receive DCCP awards. For the 2024 performance year, UBS granted DCCP awards to 5,359 employees. DCCP is consistent with many of the features of the loss-absorbing bonds that UBS issues to investors and may be paid at vesting in cash or, at the discretion of the firm, a perpetual, marketable additional tier 1 (AT1) capital instrument. Employees can elect to have their DCCP awards denominated in Swiss francs or US dollars. DCCP awards vest in full after five years (longer deferral periods may apply for regulated employees). DCCP awards bear notional interest paid annually (except as limited by regulation for MRTs), subject to review and confirmation by the Compensation Committee. The notional interest rate for grants in 2025 was 2.70% for awards denominated in Swiss francs and 7.05% for awards denominated in US dollars. These interest rates are based on the current market rates for similar AT1 capital instruments issued by UBS Group. Awards are forfeited if a viability event occurs, i.e., if FINMA notifies the firm that the DCCP awards must be written down to mitigate the risk of an insolvency, bankruptcy or failure of UBS or if the firm receives a commitment of extraordinary support from the public sector that is necessary to prevent such an event. DCCP awards are also written down for GEB members if the Group's CET1 capital ratio falls below 10% and for all other employees if it falls below 7%.

UBS Control Functions

UBS control functions must be independent in order to monitor risk effectively. Therefore, their compensation is determined separately from the revenue areas that they oversee, supervise or monitor. Their performance award pool is based not on the performance of these businesses, but on the performance of the Group as a whole. UBS also considers other factors, such as how effectively the function has performed, and UBS's market position. Decisions on individual compensation for the senior managers of the control functions are made by the function heads and approved by the Group CEO. Decisions on individual compensation for the members of Group Internal Audit (GIA)

are made by the Head GIA and approved by the Chairman. Following a proposal by the Chairman, total compensation for the Head GIA is approved by the Compensation Committee.

UBS's commitment to pay fairness, diversity, equity and inclusion

Pay equity and equal opportunity are fundamental to achieving UBS's strategy. The diversity of UBS's employees in terms of experiences, perspectives and backgrounds is critical to UBS's success. Factors such as gender, race, ethnicity or part-time status should not impact opportunities available to UBS employees. Fair and consistent pay practices are designed to ensure that employees are appropriately rewarded for their contribution. UBS pay for performance, and it takes pay equity seriously. UBS have embedded clear commitments in our global compensation policies and practices. UBS annually review our approach and policies, in line with established equal pay methodologies, to support our continuous improvement. As part of UBS's commitment to equal pay, UBS regularly conduct internal reviews on pay equity, and the UBS statistical analyses show a differential between male and female employees in similar roles across our core financial hubs of less than 1%. If UBS finds any gaps not explained by business or by appropriate employee factors, such as role, responsibility, experience, performance or location, UBS looks at the root causes and addresses them. UBS also aim to ensure that all employees are paid at least a living wage. UBS regularly assess employees' salaries against local living wages, using benchmarks defined by the Fair Wage Network. The UBS analysis in 2024 showed that employees' salaries were at or above the respective benchmarks.

Further information

Further details on the UBS policy and practices can be found in the 2024 Compensation Report and the 2024 Annual Report of UBS Group AG, both of which are available on www.ubs.com.

UBS Asset Management (UK) Limited acts as the Investment Manager for the Company and is a delegate of the Manager. The Investment Manager is subject to regulatory requirements on remuneration disclosure for its staff to whom investment management activities have been delegated that are equally as effective as those under Article 69(3)(a) of the UCITS Directive – consequently, the information disclosed by the Investment Manager is set out in the paragraphs below.

Umbrella and Sub-Funds

UBS (Irl) Fund Solutions - 2 identified staff

Total Remuneration

Euro

	Fixed	Variable	Total
	72,651	122,515	195,166

As market or regulatory practice develops UBS AM may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

For the year ending 31 December 2024 (last available information), the aggregate total remuneration paid by all delegated Investment Managers to their Identified Staffs in relation to the Fund amounted to EUR 169,558 of which EUR 78,612 represented the variable remuneration (2 beneficiaries).

Proportionality

Given the small size and non-complex nature of the Manager, it has applied the proportionality provisions of the Guidelines. The below information provides the total remuneration paid by the Manager during the year to 31 December 2024. There is no allocation made by the Manager to each UCITS and as such the disclosure reflects the remuneration paid by the Manager in relation to work performed on all UCITS, as well as the remuneration paid by the Manager in relation to work performed on non-UCITS (e.g. AIF funds).

Of the total remuneration paid of EUR 2,904,548 for the year ended 31 December 2024 to 24 beneficiaries, EUR 2,441,505 (84%) has been paid as fixed remuneration. The remainder (16%) is variable remuneration. Remuneration code staff consists of those whom the Manager has determined undertake professional activities which have a material impact on the risk profiles of the Manager or of the AIFs, namely the board of directors of the Manager, senior management, material risk takers, control function staff, as well as high-earning staff members (i.e. whose total remuneration falls into the remuneration bracket of senior managers and risk takers who are not already in the above categories and who have a material impact on the risk profile of the Company or of the funds it manages). There are 16 individuals who meet this definition and their total remuneration was EUR 2,218,719, split EUR 1,839,335 (83%) as fixed remuneration and the remainder (17%) as variable remuneration.

Appendix 2

Securities Financing Transactions Regulation (Unaudited)

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions ("SFTR") requires reporting and disclosures for securities financing transactions ("SFTs") and total return swaps.

SFTs are specifically defined as per Article 3(11) of the SFTR as follows:

- a repurchase/reverse repurchase agreement
- securities or commodities lending/borrowing
- a buy-sellback or sale-buyback transaction
- a margin lending transaction

During the financial year under review the Sub-Funds entered into total return swap transactions.

Below is the fair value of total return swaps held on the Sub-Funds as at 30 June 2025, which are settled bi-laterally. UBS AG, located in Switzerland, is the swap counterparty on all Sub-Funds.

Sub-Fund	Currency	Fair Value	% of Net Assets Value
UBS CMCI Composite SF UCITS ETF	USD	18,411,967	1.10%

Collateral received by each of the Sub-Funds is held with the Depository, State Street Custodial Services (Ireland) Limited.

Collateral cash can be invested in money market funds. The Sub-Funds invest such cash in the UBS (Irl) Select Money Market Fund EUR/USD Sustainable Funds. Details of these money market funds can be found at www.ubs.com/funds. The min/max rate of return for money market investments as a percentage of average AUM for the period was 0.00%/0.31%.

Non-cash collateral cannot be sold, pledged, or re-invested per the Company's Prospectus.

The following table provides an analysis of the maturity tenor of the collateral as at 30 June 2025. Cash collateral received is recognised as open maturity in the table below:

Sub-Fund	Currency	Less than 1 year	Greater than 1 year	Open Maturity
UBS CMCI Composite SF UCITS ETF	USD	—	—	30,299,611
UBS BBG Commodity Index SF UCITS ETF	USD	—	—	10,832,347

Note

- 1 With the exception of total return swaps, the Company did not engage in any securities financing transactions during the financial period.
- 2 This relates to the realised and unrealised gains and losses on the Fully Funded Swaps and Total Return Swaps (together the "TRS" under SFTR definition) during the 12 months ended 30 June 2025 which are included in the Statement of Comprehensive Income, before deduction of associated costs.
- 3 This relates to deductions made to the values of the TRS during the 12 months ended 30 June 2025.
- 4 Calculated as the difference between the return and the cost
- 5 Calculated as the absolute amount of the cost as a percentage of the absolute amount of the returns
- 6 Calculated as the absolute amount of the return as a percentage of average NAV for the financial year
- 7 Calculated as the absolute amount of the cost as a percentage of average NAV for the financial year
- 8 The deductions made to the values of the TRS by the counterparty take account of all external fees to which it is committed to pay and any transaction costs and charges that normally arise. These are analysed as follows for the 12 months ended 30 June 2025 (all as a percentage of average NAV for the financial year):

Description	Notes	USD	% of NAV
Administrator fees	9	406,831	0.02%
Custodian fees	9	211,552	0.01%
Trustee fees	9	48,820	—%
Miscellaneous expenses	9,10	390,557	0.02%
Investment Management fees	9	2,847,813	0.17%
Manager fees	9	1,627,322	0.10%
Non-contingent deductions due to the swap counterparty	11	1,707,733	0.13%
Total		7,240,627	0.45%

- 9 These amounts are paid or payable by the TRS counterparty to the Sub-Fund during the 12 months ended 30 June 2025.
- 10 Miscellaneous expenses as described in the Company's prospectus. For example (but not limited to) ongoing organisation and registration cost, legal and audit services and marketing costs.
- 11 These amounts are retained by the TRS counterparty to the Sub-Fund during the 12 months ended 30 June 2025 and relate to swap transaction costs and index licensing fees.

The returns and costs of the total return swaps held by the Sub-Funds for the financial period ended 30 June 2025 are detailed below:

Note

- 1 With the exception of total return swaps, the Company did not engage in any securities financing transactions during the financial period.
- 2 This relates to the realised and unrealised gains and losses on the Fully Funded Swaps and Total Return Swaps (together the "TRS" under SFTR definition) during the 12 months ended 30 June 2025 which are included in the Statement of Comprehensive Income, before deduction of associated costs.
- 3 This relates to deductions made to the values of the TRS during the 12 months ended 30 June 2025.
- 4 Calculated as the difference between the return and the cost
- 5 Calculated as the absolute amount of the cost as a percentage of the absolute amount of the returns
- 6 Calculated as the absolute amount of the return as a percentage of average NAV for the financial year
- 7 Calculated as the absolute amount of the cost as a percentage of average NAV for the financial year
- 8 The deductions made to the values of the TRS by the counterparty take account of all external fees to which it is committed to pay and any transaction costs and charges that normally arise. These are analysed as follows for the 12 months ended 30 June 2025 (all as a percentage of average NAV for the financial year):

Description	Notes	USD	% of NAV
Administrator fees	9	46,819	0.02%
Custodian fees	9	24,346	0.01%
Trustee fees	9	5,618	—%
Miscellaneous expenses	9,10	44,947	0.02%
Investment Management fees	9	84,275	0.04%
Manager fees	9	56,183	0.03%
Non-contingent deductions due to the swap counterparty	11	383,437	0.20%
Total		645,625	0.32%

- 9 These amounts are paid or payable by the TRS counterparty to the Sub-Fund during the 12 months ended 30 June 2025.
- 10 Miscellaneous expenses as described in the Company's prospectus. For example (but not limited to) ongoing organisation and registration cost, legal and audit services and marketing costs.
- 11 These amounts are retained by the TRS counterparty to the Sub-Fund during the 12 months ended 30 June 2025 and relate to swap transaction costs and index licensing fees.

The returns and costs of the total return swaps held by the Sub-Funds for the financial period ended 30 June 2025 are detailed below:

Note

- 1 With the exception of total return swaps, the Company did not engage in any securities financing transactions during the financial period.
- 2 This relates to the realised and unrealised gains and losses on the Fully Funded Swaps and Total Return Swaps (together the "TRS" under SFTR definition) during the 12 months ended 30 June 2025 which are included in the Statement of Comprehensive Income, before deduction of associated costs.
- 3 This relates to deductions made to the values of the TRS during the 12 months ended 30 June 2025.
- 4 Calculated as the difference between the return and the cost
- 5 Calculated as the absolute amount of the cost as a percentage of the absolute amount of the returns
- 6 Calculated as the absolute amount of the return as a percentage of average NAV for the financial year
- 7 Calculated as the absolute amount of the cost as a percentage of average NAV for the financial year
- 8 The deductions made to the values of the TRS by the counterparty take account of all external fees to which it is committed to pay and any transaction costs and charges that normally arise. These are analysed as follows for the 12 months ended 30 June 2025 (all as a percentage of average NAV for the financial year):

Description	Notes	USD	% of NAV
Administrator fees	9	40	—%
Custodian fees	9	31	—%
Trustee fees	9	7	—%
Miscellaneous expenses	9,10	5	—%
Investment Management fees	9	127	0.01%
Manager fees	9	26	—%
Non-contingent deductions due to the swap counterparty	11	(709)	(0.04%)
Total		(473)	(0.03%)

- 9 These amounts are paid or payable by the TRS counterparty to the Sub-Fund during the 12 months ended 30 June 2025.
- 10 Miscellaneous expenses as described in the Company's prospectus. For example (but not limited to) ongoing organisation and registration cost, legal and audit services and marketing costs.
- 11 These amounts are retained by the TRS counterparty to the Sub-Fund during the 12 months ended 30 June 2025 and relate to swap transaction costs and index licensing fees.

The returns and costs of the total return swaps held by the Sub-Funds for the financial period ended 30 June 2025 are detailed below:

Appendix 3

Sustainable Finance Disclosure Regulation ("SFDR") (Unaudited)

Article 6:

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

Consideration of sustainability risks are not integrated due to the investment strategy and the nature of the underlying investments (SFDR Art. 6). Sustainability risks are not currently expected to have a material impact on achieving the return objectives of the financial product.

The financial product does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).

With respect to the Sub-Funds included in the table below the investments underlying each of these Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities.

UBS CMCI Composite SF UCITS ETF
UBS BBG Commodity Index SF UCITS ETF
UBS S&P 500 SF UCITS ETF
UBS MSCI USA SF UCITS ETF
UBS MSCI EM SF UCITS ETF

UBS GBP Overnight Rate SF UCITS ETF
UBS EUR Overnight Rate SF UCITS ETF
UBS S&P 500 Equal Weight SF UCITS ETF

Article 8:

With respect to the Sub-Funds included in the table below, these Funds follow the requirements of Article 8 of SFDR as they promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics and the companies in which the Sub-Fund invests in exhibit good governance.

UBS CMCI Future Commodity SF Ucits ETF

ANNEX IV

Presentation – Regular information on the financial products referred to in Article 8 paragraphs 1, 2 and 2a of Regulation (EU) 2019/2088 and Article 6 paragraph 1 of Regulation (EU) 2020/852

A sustainable investment means an investment in an economic activity that contributes towards attaining an environmental or a social objective, provided that these investments do not significantly harm any environmental or social objective and that the companies in which the investment is made follow good governance practices.

The **EU Taxonomy** is a classification system that is determined in Regulation (EU) 2020/852 and contains a list of **environmentally sustainable economic activities**. This regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective may or may not be Taxonomy-aligned.

Sustainability indicators are used to measure to what extent the environmental or social characteristics promoted by the financial product are attained.

Product name:	Legal entity identifier (LEI code)
---------------	------------------------------------

UBS CMCI Future Commodity SF UCITS ETF	54930002MV1UTBISOC34
--	----------------------

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

● ● Yes

Sustainable investments were thereby made with an environmental objective: ___%

- in economic activities that are classified as environmentally sustainable under the EU Taxonomy
- in economic activities that are not classified as environmentally sustainable under the EU Taxonomy

Sustainable investments were thereby made with an social objective: ___%

● ● ✗ No

Environmental/social characteristics were thereby promoted and while no sustainable investments were pursued, it contained ___% sustainable investments.

- with an environmental objective in economic activities that are classified as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that are not classified as environmentally sustainable under the EU Taxonomy
- with a social objective

✗ Environmental/social characteristics were promoted but **no sustainable investments were made**.

To what extent were the environmental and/or social characteristics promoted by the financial product fulfilled?

● *How did the sustainability indicators perform?*

The ESG promotion characteristics are measured using the following indicators respectively.

The Reference Index aims to incorporate ecological and social criteria that has been developed by Reinhard Friesenbichler Unternehmensberatung (RFU), specialists in sustainable and investment research, into the UBS Constant Maturity Commodity Index (the "CMCI" - parent benchmark) and gradually improve its portfolio level Ecological-Social (E-S) score each year by +0.245. This gradual improvement will happen until no feasible solution as part of the optimisation process can be found to increase the score.

The 0.245 improvement on the ES Score is vs. the index's previous year score, working up from 2021 which is the base year of the index (UBS CMCI Future Commodity Index) (-2.375 vs -2.620)

Beyond the year-on-year improvement of the index E-S score by +0.245, the CMCI Sustainability Transition leverages CMCI's tenor diversification to enhance these characteristics.

● ***... and compared to previous periods?***

Not applicable. This is the first reference period.

● ***What are the objectives of the sustainable investments that were made in part with the financial product, and how does the sustainable investment contribute to such objectives?***

Not applicable.

● ***To what extent did the sustainable investments that were partially made with the financial product not cause significant harm to environmentally or socially sustainable investment objectives?***

Not applicable.

|- - ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Not applicable.

|- - ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Not applicable.

How did this financial product take the principal adverse impacts on sustainability factors into account?

Yes

No

Principal adverse impacts are the most significant adverse impacts of investment decisions on sustainability factors relating to environmental, social and employment affairs, respect for human rights and combating corruption and bribery.

What are the main investments of this financial product?

The list comprises the following investments that accounted for **the largest share of** the financial product's **investments** made in the reference period: 30.06.2025

Largest investments*	% Assets
LME Copper	11,45
Brent Crude Oil	8,25
LME Aluminium	8,11
Corn	6,77
High Grade Copper	6,26
Sugar #11	5,27
WTI Crude Oil	5,20

*calculation considers positions held within the swap only

What was the share of sustainability-related investments?

Not applicable.

The asset allocation indicates the respective share of the investments in specific assets.

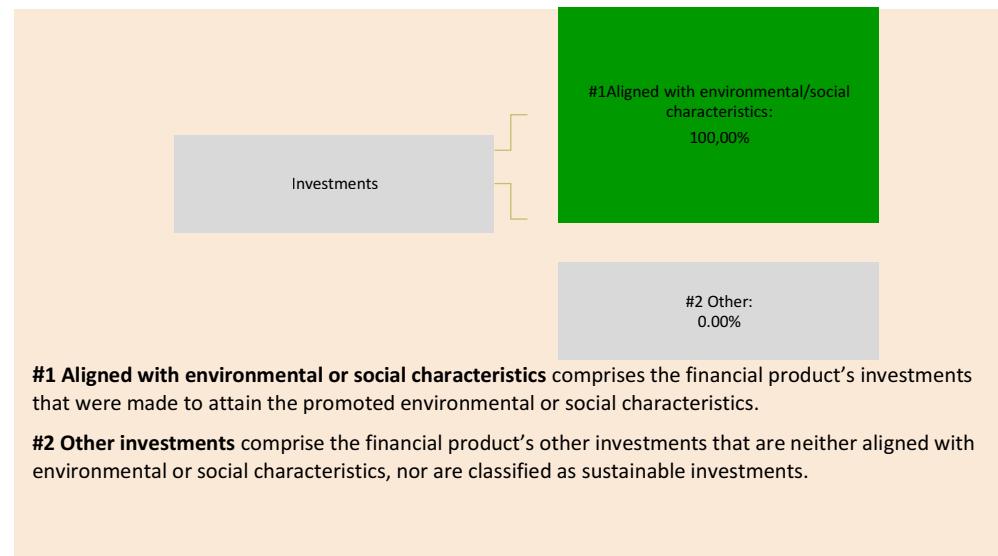

What was the asset allocation?

The financial product's shares of investments were determined at the end of the reference period, i.e. as at 30 June 2025

With regard to alignment with the EU Taxonomy, the criteria for **natural gas** include the limitation of emissions and the switch to fully-renewable energies or low-carbon fuels by the end of 2035. The criteria for **nuclear energy** include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a significant contribution to the environmental objectives.

Transitional activities are activities for which low-carbon alternatives are not yet available and, among other things, feature GHG emissions levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Please refer here to the section “Inventory of the fund assets” of the respective sub-fund in this annual report, which contains a breakdown of the economic sectors in which investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● ***Did the financial product invest in EU Taxonomy-aligned activities in natural gas and/or nuclear energy¹?***

Yes:

In natural gas In nuclear energy

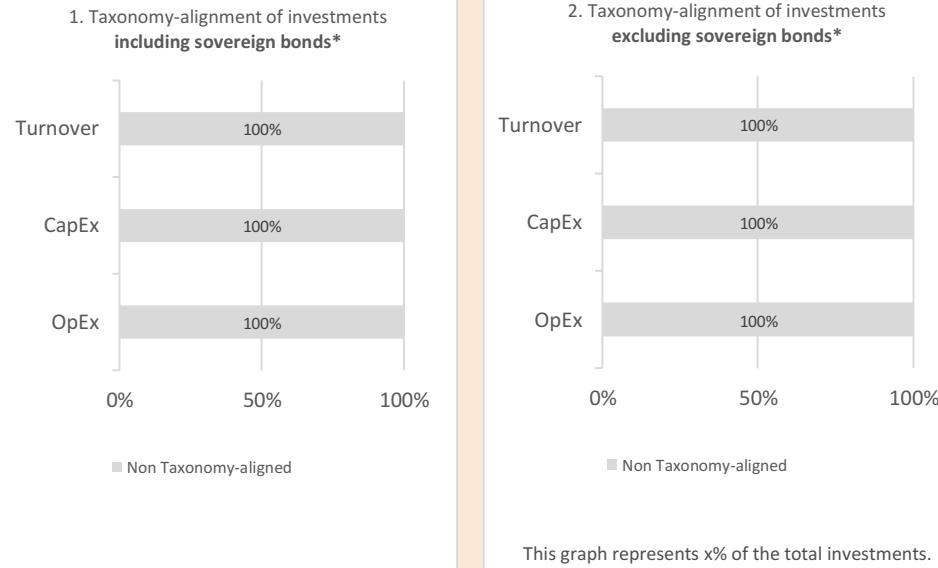

No

¹ Activities in natural gas and/or nuclear energy are only aligned with the EU Taxonomy if they contribute to mitigating climate change (“climate protection”) and do not significantly harm any objective of the EU Taxonomy – see explanation in the left margin. The full criteria for EU Taxonomy-aligned economic activities in the areas of natural gas and nuclear energy are set out in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities, expressed by the share of:

- **Sales revenues** that reflect the share of revenues from environmentally-friendly activities of the companies in which investments are made
- **Capital expenditure** (CapEx) that shows the environmentally-friendly investments of the companies in which investments are made, e.g. for the transition to a green economy
- **Operating expenditure** (OpEx) that reflects the environmentally-friendly investments of the companies in

The charts below show the minimum percentage of EU Taxonomy-aligned investments in green. As there is no suitable method for determining the Taxonomy alignment of sovereign bonds, the first chart shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second chart shows the Taxonomy alignment only in relation to the investments of the financial product that do not include sovereign bonds.*

* For the purposes of these charts, the term "sovereign bonds" includes all sovereign risk exposures.

● **What is the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the share of investments made in line with the EU Taxonomy perform compared with earlier reference periods?**

Not applicable. This is the first reference period

 are sustainable investments with an environmental objective that **do not take into account the criteria for** environmentally sustainable economic activities under Regulation (EU) 2020/852.

 **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

 **What was the share of socially sustainable investments?**

Not applicable.

What investments were included in “Other investments”, what investment purpose did they pursue and were there minimum environmental or social safeguards?

“#2 Other investments” include cash and unrated investment instruments that were used for liquidity and portfolio risk management purposes. Unrated investment instruments may also include securities for which the data necessary to measure the attainment of the individual environmental or social characteristics are not available.

What measures were taken during the reference period to meet the environmental and/or social characteristics?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager will tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible.

The investment strategy is to fully replicate the index and to minimize the tracking error. The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

The reference benchmarks are indices that are used to measure whether the financial product attains the promoted environmental or social characteristics.

How does the reference benchmark differ from a broad market index?

The Reference Index is constructed by incorporating ecological and social criteria into the UBS Constant Maturity Commodity Index (the “CMCI”) to achieve an improvement in the portfolio level ecological-social score (the “ES Score”) over time. To calculate this ES Score, the Index Owner (as defined below) uses an external provider, Reinhard Friesenbichler Unternehmensberatung or “RFU”, to assess the current and future sustainability prospects of commodities within the CMCI across the energy, agriculture and metals industries. The ES score is a numerical value per commodity that is computed by combining a continuous variable that assesses the sustainability of commodities from a production, utilisation, ecological and social perspective (e.g., with regard to waste and emissions, end-user industry impact, human rights, health and safety and supply chain impact), with a categorical variable that reflects the sustainability outlook of that commodity from a future utilisation and production point of view.

The composition of the Reference Index is rebalanced to new commodity target weights on an annual basis and the allocation to each commodity component is determined via the aid of optimisation. The

optimisation objective is to minimize deviations from the CMCI target weights subject to: (i) liquidity, (ii) diversification constraints; and (iii) achieving an overall improvement in the ES Score at the Reference Index level.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The ESG Score had a 0.245 improvement versus the benchmark (UBS CMCI Future Commodity Index) (-2.375 vs -2.620)

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score had a 0.245 improvement versus the benchmark (UBS CMCI Future Commodity Index) (-2.375 vs -2.620)

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the broad market index?`***

The ESG Score was lower than that of the reference benchmark (UBS Constant Maturity Commodity Index (the "CMCI") (-2.375 vs -3.648).
